Alternative III: If Applicant seeks authority to provide interexchange service in every telephone exchange in Oregon, then specify "Statewide."

Statewide

**9. Describe special characteristics, limitations, or restrictions that will be part of Applicant's services:**

The networks will be constructed in the right of way with an effort to minimize visual and environmental impact. This can be accomplished by utilizing low power radio and antenna equipment secured to existing utility and or light poles and connected with fiber optic cable.

**10. Operator Services:**

- a. Operator service includes, but is not limited to, billing or completion of third-party billing calls, person-to-person calls, collect calls, and credit card calls. See OAR 860-032-0001.

Will Applicant directly offer operator services?  Yes  No

- b. ORS 759.690(1)(d) defines "operator service provider" as a person who furnishes operator service under contract with a call aggregator. ORS 759.690(1)(a) defines a call aggregator as a person who furnishes a telephone for use by the public, i.e., transient use.

Will Applicant be an "operator service provider" as defined in ORS 759.690(1)(d)?  Yes  No

**11. Shared Telecommunications Service:**

Shared Telecommunications Service (STS) service is defined in OAR 860-032-0001. STS includes resale of long-distance service to the STS provider's user group, but not to customers outside the user group.

- a. Provide the address of the building where shared service will be provided through privately owned customer premises equipment. If Applicant intends to serve a user group located in two or more buildings, include an electronic copy of a map clearly showing the locations to be served by the Applicant. The information on the map must be precise and legible and include street names and the city where the building(s) is(are) located.

- b. An STS site or location consists of one building, or it consists of a complex of buildings or a campus on contiguous property. An STS provider may interconnect separate sites in order to aggregate toll traffic. An STS provider may not interconnect separate sites in order to provide local exchange service between those sites.

If serving buildings at separate sites, will applicant interconnect the buildings in order to aggregate toll traffic?  Yes  No

- c. Describe the user group or association at the STS location.

**NOTE: Applicant must apply to PUC for another certificate of authority in order to add subsequent STS sites.**

**Conditions of a certificate of authority:**

As a condition of a certificate of authority, applicant must comply with all applicable Commission rules and state law, as well as conditions listed in the certificate.

For your convenience, following is a summary of some conditions from OAR 860-032-0001 et seq. (Division 32). Additional conditions may be specified in the certificate.

- a. Certificate holder shall provide only telecommunications services authorized by the certificate.
- b. Certificate holder shall, at a minimum, meet the standard level of service specified in OAR 860-032-0012. The standard level of service is 99 percent probability that a call will not be blocked during the certificate holder's busy hour of the day.
- c. Certificate holder's books and records shall be open to inspection by the Commission to the extent necessary to verify information required by the Commission's rules.
- d. Certificate holder shall maintain its books and records according to generally accepted accounting principles and the applicable rules of the Commission.
- e. Certificate holder shall pay all access charges and subsidies imposed pursuant to the Commission's rules.
- f. Certificate holder shall pay an annual fee to the Commission pursuant to the Commission's rules. This fee will be based on the certificate holder's annual gross retail intrastate revenues and will be no less than \$100 per calendar year. The certificate holder shall collect the fee by charging an equitable amount to each retail customer and describe the amount of the apportioned charge on each retail customer's bill, pursuant to the Commission's rules.
- g. The certificate holder shall pay a quarterly amount to the Oregon Universal Service Fund based on a Commission-approved surcharge percentage assessed on all retail telecommunications services sold in Oregon

pursuant to ORS 759.425(4).

h. Certificate holder shall respond in a timely manner to Commission inquiries.

Pursuant to Residential Service Protection statutes, Chapter 290, Oregon Laws 1987, and Division 22, certificate holder shall be responsible to ensure that the Residential Service Protection Fund surcharge is remitted to the Commission. This surcharge is assessed against each paying retail subscriber at a rate that is set annually by the Commission.

**Applicant understands that all services provided by Applicant must comply with all applicable Commission rules and state law, and with conditions of the certificate (check box at left).**

## COMPANY INFO

### Inception Date:

NewPath Networks, LLC was formed on February 18, 2004 in the State of New Jersey. NewPath Networks, LLC is a registered New Jersey Limited Liability Company. NewPath Networks, LLC is also registered in California as a Foreign Limited Liability Company (see CPCN INFO tab).

### History:

NewPath Networks, LLC was formed in early 2004 by Michael J. Kavanagh and Shawn Coopridner to address a need in the wireless marketplace. Shawn and Mike have over 30 years experience combined in the wireless industry on the operator and OEM equipment fronts. NewPath goal is to harness the common interests of wireless carriers to create cost-effective solutions that benefit the wireless customers and the communities where they offer service. Sweetwater Capital Partners is the primary investor in NewPath Networks. They have committed \$15 million for the development, deployment, and maintenance of shared, fiber-fed networks primarily in the Western half of the United States. NewPath Networks, LLC is headquartered in Seattle, WA with satellite offices in Richardson, TX and San Ramon, CA.

### Business Description:

NewPath Networks, LLC specializes in the design, installation, and operation of fiber-fed distributed antenna systems that extend wireless networks, improving quality and coverage with community-friendly solutions.

NewPath Networks was founded to address the increasing demand from Wireless Services Providers (WSPs) for a solution to long-standing coverage problems as well as network enhancements that add capacity to accommodate high speed data applications. NewPath Networks delivers creative solutions that enable WSPs to more effectively serve their customers.
