MidAmerican Energy Holdings Company Reaches Tentative Agreement to Acquire Constellation Energy

DES MOINES, IOWA AND BALTIMORE – Sept. 18, 2008 – MidAmerican Energy Holdings Company and Constellation Energy (NYSE: CEG) today announced the companies have reached a tentative agreement in which MidAmerican will purchase all of the outstanding shares of Constellation Energy for a cash consideration of approximately \$4.7 billion, or \$26.50 per share. The companies expect to enter into a definitive merger agreement by close of business, Sept 19. Upon signing a definitive merger agreement, Constellation Energy will issue \$1 billion of preferred equity yielding 8 percent to MidAmerican.

The tentative agreement, which has been unanimously approved by both companies' Boards of Directors, is subject to further due diligence, as well as shareholder and customary federal, state and local regulatory approvals. The transaction is expected to close within nine months.

“We strongly believe this transaction is in the best long-term interest of our investors, employees and the customers and communities we serve,” said Mayo A. Shattuck III, chairman, president and chief executive officer for Constellation Energy. “The financial services sector and energy commodity markets have witnessed unprecedented volatility. Backed by the significant industry expertise and financial

stability of MidAmerican and Berkshire Hathaway, Constellation Energy will build on its reputation as a first-choice energy solution provider for our many customers.”

“MidAmerican has been a wonderful steward of its energy assets and the acquisition of Constellation Energy, when completed, will prove beneficial to all constituents,” said Warren E. Buffett, chairman, Berkshire Hathaway.

“In Constellation Energy, we have a partner that brings a world-class organization of people and an industry-leading collection of energy assets,” said Gregory E. Abel, president and chief executive officer of MidAmerican Energy Holdings Company.

“MidAmerican is very comfortable with, and committed to, Constellation Energy’s current strategic plan. We intend, as with all of our investments, to allow Constellation Energy to operate autonomously as it pursues its long-term goals. Constellation Energy’s premier fleet of nuclear assets, and its UniStar joint venture with EDF, complements MidAmerican’s ongoing commitment to environmental initiatives, including investments in hydro, wind and geothermal energy. Joining forces with Constellation Energy accelerates our strategic initiative to develop and build energy infrastructure assets in North America.”
