Re: Moore/PPL & Hood River Electric Coop
Property Owners of Tax Lot 501
Docket No. UA110

Dear Judge Petrillo:

On Friday the 13th of April, 2007, PP&L representatives Rob Stewart (local manager) and Michelle Mishoe (attorney), Charles Weise (Hood River Electric Coop Representative), Alan Moore (Lot 501 owner), and myself (representing owner and petitioners) met at the property.

1. It is apparent that the service boundary runs across a very small portion of lot 501, with respect to Hood River Electric Coop., viz., enclosed exhibits "A" and "B" which exhibits also show the approximate location of buildings to be served, existing service contacts.
2. The difference in costs for introduction of service is; PP&L \$4,700 – HRE \$400.00.
3. It was evident that the owner has a strong emotional tie to Hood River Electric (his father was an organizer – his son is on the Board of Directors).
4. The Moores have their orchard camp and operations across Whiskey Creek in this same vicinity – which is in the Hood River Electric Coop service – and as such gives greater credence to their obtaining the same service for lot 501.
5. The logical boundary between the two services is the section lines and not the creek.
6. There is a strong sentiment among the consumers in the area to change the line accordingly.

Honorable Samuel J. Petrillo, ALJ

We have not reached an agreement; although further negotiation is appropriate, in my opinion.

Yours truly,

M. D. Van Valkenburgh
