RE: UE 189, AMI Implementation Plans

On September 16, 2008, PGE submitted a letter to the Commission indicating that the overall implementation plans for business process changes were being revised and that PGE would provide updated plans to the OPUC and the UE 189 service list by mid November. PGE has continued to work through Systems Acceptance Testing (SAT) of the technology being deployed as part of the AMI project. We now expect that the SAT will be delayed until the first quarter of 2009 because of delays in meter delivery and software completion. This delay moves the meter deployment completion date two months, from August 2010 to October 2010. The overall completion time is still well within the time allotted in the AMI tariff.

PGE is now revising its implementation plans to address both the business process changes discussed in the September 16 letter and the SAT changes discussed above. PGE expects to provide these implementation plans to the OPUC and the UE 189 service list by December 31, 2008.

If you have any questions regarding this submittal, please contact Alex Tooman at (503) 464-7623 or Patrick Hager at (503) 464-7580.

Sincerely,

A handwritten signature in black ink, appearing to read "Patrick G. Hager", is written over the word "Sincerely,".

Patrick G. Hager
Manager, Regulatory Affairs
