RE: UM 1345 - Portland General Electric Scoring Criteria

Enclosed for filing is PGE's detailed scoring and weighting criteria for its 2008 RFP for Renewable Energy Resources issued April 23, 2008. This filing is in compliance with Docket UM 1345, Final Order No. 08-234, condition two.

2. Portland General Electric Company must file the detailed scoring and weighting criteria with the Commission, for review by Staff no later than the day before the Request for Proposals responses are due from bidders. Specifically, the Company must provide the methodology for translating each bid's initial price score – percent of forward price curve – into a score (maximum 60 points out of 100) that can be blended with the non-price score. Further, the detailed scoring must show how the Company will award points for the non-price factors within each category.

RFP bids are due June 4, 2008. This filing is confidential and subject to Protective Order No. 07-440 to be shared only with OPUC Staff and Accion.
