Re: In the Matter of PORTLAND GENERAL ELECTRIC COMPANY  
Request for a General Rate Revision  
**Docket No. UE 197**

Dear Filing Center:

Enclosed please find the original Protective Order Signatory Pages on behalf of the Industrial Customers of Northwest Utilities ("ICNU") in the above-referenced docket. ICNU identifies the following persons as qualified under Paragraph 3(e) and Paragraph 10 of the Protective Order:

- Randall J. Falkenberg
- Kathryn E. Iverson

Also enclosed is the information required pursuant to Paragraph 10 for each expert witness. Thank you for your assistance.

Sincerely,

/s/ Brendan E. Levenick  
Brendan E. Levenick

Enclosures

cc: Service List

## CERTIFICATE OF SERVICE

I HEREBY CERTIFY that I have this day served the foregoing Protective Order Signatory Pages of the Industrial Customers of Northwest Utilities upon the parties, on the service list, by causing the same to be deposited in the U.S. Mail, postage-prepaid.

Dated at Portland, Oregon, this 1st day of April, 2008.

/s/ Brendan E. Levenick

**Q PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.**

A Kathryn E. Iverson; 17244 W. Cordova Court, Surprise, Arizona 85387.

**Q PLEASE STATE YOUR OCCUPATION.**

A I am a consultant in the field of public utility regulation with Brubaker & Associates, Inc., energy, economic and regulatory consultants.

**Q PLEASE SUMMARIZE YOUR EDUCATIONAL BACKGROUND AND WORK EXPERIENCE.**

A In 1980 I received a Bachelors of Science Degree in Agricultural Sciences from Colorado State University, and in 1983, I received a Masters of Science Degree in Economics from Colorado State University.

In March of 1984, I accepted a position as Rate Analyst with the consulting firm Browne, Bortz and Coddington in Denver, Colorado. My duties included evaluation of proposed utility projects, benefit-cost analysis of resource decisions, cost of service studies and rate design, and analyses of transmission and substation equipment purchases.

In February 1986, I accepted a position with Applied Economics Group, where I was responsible for utility economic analysis including cogeneration projects, computer modeling of power requirements for an industrial pumping facility, and revenue impacts associated with various proposed utility tariffs. In January of 1989, I was promoted to the position of Vice President. In this position, I assumed the additional responsibilities of project leader on projects, including the analysis of alternative cost recovery methods, pricing, rate design and DSM adjustment clauses, and representation of a group of industrial customers on the Conservation and Least Cost Planning Advisory Committee to Montana Power Company.

In March 1992, I accepted a position with ERG International Consultants, Inc., of Golden, Colorado as Senior Utility Economist. While at ERG, I was responsible for the

1 cost-effectiveness analysis of demand-side programs for Western Area Power  
2 Administration customers. I also assisted in the development of a reference manual on  
3 the process of Integrated Resource Planning including integration of supply and demand  
4 resource, public participation, implementation of the resource plan and elements of  
5 writing a plan. I lectured and provided instructional materials on the key concept of life-  
6 cycle costing seminars held to provide resource planners and utility decision-makers with  
7 a background and basic understanding of the fundamental techniques of economic  
8 analysis. My work also included the evaluation of a marginal cost of service study,  
9 assessment of avoided cost rates, and computer modeling relating engineering simulation  
10 models to weather-normalized loads of schools in California.

11 In November of 1994, I accepted a position with Drazen-Brubaker & Associates,  
12 Inc. In April, 1995 the firm of Brubaker & Associates, Inc. was formed. It includes most  
13 of the former DBA principals and Staff. Since joining this firm, I have performed  
14 various analyses of integrated resource plans, examination of cost of service studies and  
15 rate design, fuel cost recovery proceedings, as well as estimates of transition costs and  
16 restructuring plans.

17 **Q HAVE YOU EVER TESTIFIED BEFORE A REGULATORY BODY?**

18 **A** Yes. I have testified before the regulatory commissions in Colorado, Georgia, Idaho,  
19 Michigan, Montana, Oregon, Texas, Washington and Wyoming.

## **QUALIFICATIONS OF RANDALL J. FALKENBERG, PRESIDENT**

---

### **EDUCATIONAL BACKGROUND**

I received my Bachelor of Science degree with Honors in Physics and a minor in mathematics from Indiana University. I received a Master of Science degree in Physics from the University of Minnesota. My thesis research was in nuclear theory. At Minnesota I also did graduate work in engineering economics and econometrics. I have completed advanced study in power system reliability analysis.

### **PROFESSIONAL EXPERIENCE**

After graduating from the University of Minnesota in 1977, I was employed by Minnesota Power as a Rate Engineer. I designed and coordinated the Company's first load research program. I also performed load studies used in cost-of-service studies and assisted in rate design activities.

In 1978, I accepted the position of Research Analyst in the Marketing and Rates department of Puget Sound Power and Light Company. In that position, I prepared the two-year sales and revenue forecasts used in the Company's budgeting activities and developed methods to perform both near- and long-term load forecasting studies.

In 1979, I accepted the position of Consultant in the Utility Rate Department of Ebasco Service Inc. In 1980, I was promoted to Senior Consultant in the Energy Management Services Department. At Ebasco I performed and assisted in numerous studies in the areas of cost of service, load research, and utility planning. In particular, I was involved in studies concerning analysis of excess capacity, evaluation of the planning activities of a major utility on behalf of its public service commission, development of a methodology for computing avoided costs and cogeneration rates, long-term electricity price forecasts, and cost allocation studies.

At Ebasco, I specialized in the development of computer models used to simulate utility production costs, system reliability, and load patterns. I was the principal author of production costing software used by eighteen utility clients and public service commissions for evaluation of marginal costs, avoided costs and production costing analysis. I assisted over a dozen utilities in the performance of marginal and avoided cost studies related to the PURPA of 1978. In this capacity, I worked with utility planners and rate specialists in quantifying the rate and cost impact of generation expansion alternatives. This activity included estimating carrying costs, O&M expenses, and capital cost estimates for future generation.

In 1982 I accepted the position of Senior Consultant with Energy Management Associates, Inc. and was promoted to Lead Consultant in June 1983. At EMA I trained and consulted with planners and financial analysts at several utilities in applications of the PROMOD and PROSCREEN planning models. I assisted planners in applications of these models to the preparation of studies evaluating the revenue requirements and financial impact of generation expansion alternatives, alternate load growth patterns and alternate regulatory treatments of new baseload generation. I also assisted in EMA's educational seminars where utility personnel

## QUALIFICATIONS OF RANDALL J. FALKENBERG, PRESIDENT

---

were trained in aspects of production cost modeling and other modern techniques of generation planning.

I became a Principal in Kennedy and Associates in 1984. Since then I have performed numerous economic studies and analyses of the expansion plans of several utilities. I have testified on several occasions regarding plant cancellation, power system reliability, phase-in of new generating plants, and the proper rate treatment of new generating capacity. In addition, I have been involved in many projects over the past several years concerning the modeling of market prices in various regional power markets.

In January 2000, I founded RFI Consulting, Inc. whose practice is comparable to that of my former firm, J. Kennedy and Associates, Inc.

The testimony that I present is based on widely accepted industry standard techniques and methodologies, and unless otherwise noted relies upon information obtained in discovery or other publicly available information sources of the type frequently cited and relied upon by electric utility industry experts. All of the analyses that I perform are consistent with my education, training and experience in the utility industry. Should the source of any information presented in my testimony be unclear to the reader, it will be provided it upon request by calling me at 770-379-0505.
