RE: Sprint's Discontinuance of Integrated Local Services in Oregon (Dkt. CP 1402)

Dear Commission:

Pursuant to OAR 860-032-0020(11), Sprint Communications Company L.P. ("Sprint") hereby provides notification to the Oregon Public Utility Commission that it intends to discontinue its provision of Sprint Integrated Local Services in Oregon. Currently Sprint only has one (1) business subscriber in Oregon that will be impacted.

The specific local offerings and features being discontinued include local business lines, Integrated T1 service, and Digital Integrated T1 service, Optional Calling Features, Operator Services, Directory Assistance and Directory Assistance Calling, Listing Services, Toll Restriction Services, Caller ID Blocking, Intercept Services, Direct Inward Dialing (DID) Numbers, and 9-1-1 Telecommunications Services. Only Sprint Integrated Local Services and the related features mentioned above are to be discontinued.

In accordance with OAR 860-032-0020(11), Sprint will send the customer notification regarding the discontinuance of Sprint Integrated Local Services to its Oregon customer on July 21, 2014. In the event that the business customer fails to select an alternative carrier by September 22, 2014, Sprint will send a duplicate copy of the customer notification as a reminder. The customer notice is attached for the Commission's review.

Please feel free to contact me with any questions or concerns that you may have regarding the discontinuance of Sprint's Integrated Local Services in Oregon.

Very truly yours,

/s/ Kristin L. Jacobson

**IMPORTANT NOTICE REGARDING DISCONTINUANCE OF
SPRINT INTEGRATED LOCAL SERVICES**

Dear Sprint Integrated Local Services Customer,

Thank you for being a valued Sprint Customer. **On December 22, 2014, or as soon thereafter as the necessary regulatory approvals can be obtained, Sprint Communications Company L.P. ("Sprint") will no longer provide certain Sprint Integrated Local Services and the associated features** (which, to date, have been provided to customers in Arizona, California, Colorado, District of Columbia, Florida, Georgia, Illinois, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, Ohio, Oregon, Pennsylvania, Texas, Virginia, and Washington). The specific Sprint Integrated Local Services and associated features being discontinued include unlimited business Local Exchange Service, Touch Tone Calling Service, Integrated T1 service, Digital Integrated T1 service, Optional Calling Features, Operator Services, Directory Assistance and Directory Assistance Calling, Listing Services, Toll Restriction Services, Caller ID Blocking, Intercept Services, Direct Inward Dialing ("DID") Numbers, and 9-1-1 Telecommunications Services.

Due to changing market conditions, Sprint has determined that it should discontinue the Sprint Integrated Local Services described above. This discontinuance impacts the business local service (including business lines, Digital PBX Trunks, and ISDN PRI service) that Sprint provides to your company as part of the Sprint Complete Access Bundle. **You will need to choose another local service provider and transition your service, preferably by September 22, 2014, as Sprint will no longer provide Sprint Integrated Local Services on December 22, 2014.** Note that a new service provider may require approximately 90 days to provision service to you. As a result, we strongly recommend that you select a provider *no later than* September 22, 2014. You may obtain replacement local exchange service, subject to the normal terms and conditions, from CenturyLink QC (Qwest), your incumbent local exchange carrier. There also may be competitive local exchange carriers operating in your area that could provide a comparable replacement service. An Internet search for "local exchange telephone service providers" in your city should provide you with several alternatives.

Many of these alternate providers offer local connectivity services that are compatible with any remaining Sprint Complete Access services that you may order, such as long distance voice service. In the event that your new local service provider is not compatible with the remaining Sprint Complete Access services to which you subscribe, you will need to find an alternate provider for those services as well. In this event, Sprint believes that CenturyLink QC (Qwest) provides these services in conjunction with its local service in your area. You also may contact any of several companies that serve the business market in your area. An Internet search for "business telecommunications service providers" in your area should provide you with several alternatives. Should you otherwise decide that you no longer wish to subscribe to your remaining Sprint Complete Access services, you may do so without penalty, and Sprint will return any deposit or credits to you.

Sprint has notified the Federal Communications Commission and the [appropriate state Commission] regarding its proposed discontinuance of service. The Federal Communications Commission will normally authorize this proposed discontinuance of service unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity would be otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Federal Communications Commission releases public notice of the proposed discontinuance. Address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, 445 12th Street, SW, Washington, DC 20554, and include in your comments a reference to the § 63.71 Application of Sprint Communications Company L.P. Comments should include specific information about the impact of this proposed discontinuance upon you or your company, including any inability to acquire reasonable substitute service. The Public Utility Commission of Oregon also may consider this discontinuance. You may provide comments to the Public Utility Commission of Oregon at PO Box 1088, Salem OR 97308-1088.

If you have questions concerning this notice, please feel free to contact Sprint at 866-653-1056. We thank you for your business and look forward to continuing to serve you in other capacities.

Sincerely,

Sprint Complete Access Services Group
