

ISSUED: April 26, 2011

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1394

In the Matter of

THE PUBLIC UTILITY COMMISSION OF
OREGON

Open an investigation into electric companies providing Qualified Reporting Entity services for certification of renewable energy certificates by the Western Renewable Energy Generation Information System.

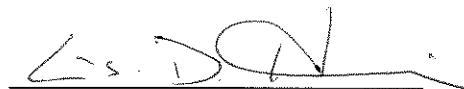

RULING

**DISPOSITION: DEADLINE ESTABLISHED FOR OBJECTIONS TO
PARTIALLY STIPULATED MOTION**

On April 22, 2011, the Public Utility Commission of Oregon (Commission) Staff filed a partially stipulated motion to close this docket. According to Staff, all active parties except the Oregon Department of Energy (ODOE), the Renewable Energy Coalition (REC), and Exergy expressly support the motion. ODOE neither supports nor opposes the motion. REC and Exergy have not yet stated a position with respect to the motion.

Commission rules allow a party to file written objections to a stipulation within 15 days after the stipulation is filed. *See* OAR 860-001-0350(8). I will treat the motion as a stipulation and set a **May 9, 2011** deadline for objections. If no party files objections by that date, Staff's motion will be treated as unopposed.

Dated at Salem, Oregon, this 26th day of April, 2011.

Lisa D. Hardie
Administrative Law Judge
