**Re: UE 209: Renewable Adjustment Clause – Attestation for
Biglow Canyon Phase 2, SunWay 1 and SunWay 2 solar projects**

Portland General Electric (PGE) hereby submits an Attestation for PGE's Biglow Canyon Phase 2 (Biglow 2), SunWay 1 solar project, and SunWay 2 solar project. The Attestation is submitted in compliance with Tariff Schedule 122, Special Condition 4, which states:

The in-service date for the new renewable resource project or each separately identifiable project segment will be verified by an attestation from the Company stating that the specific renewable resource project, or project segment, has met requirements for being commercially operational and is in service.

As indicated in the Attestation, 100 percent of Biglow 2 turbines were producing power and connected to the transmission facilities as of August 17, 2009. Exhibit A of the Attestation shows the detail of when each turbine was commissioned. SunWay 1 solar project was in service and producing power on December 16, 2008. SunWay 2 solar project consists of photovoltaic thin-film systems placed on the roofs of three separate buildings. The systems on two of those rooftops were in-service on December 31, 2009 and the third system was in service on January 9, 2009.

Sincerely,

Patrick G. Hager
Manager, Regulatory Affairs

OF OREGON**

UE 209

In the Matter of Portland General Electric
Company's Application for Deferred
Accounting and Renewable Resources
Automatic Adjustment Clause (Advice No. 09-
06, Schedule 122)

ATTESTATION

I, Stephen Quennoz, being first duly sworn, depose and say:

1. I am Vice-President, Power Supply/Generation at Portland General Electric Company (PGE).
2. In compliance with Tariff Schedule 122, Special Condition 4, PGE submits this Attestation for PGE's Biglow Canyon Phase 2 (Biglow 2), Sunway 1 solar project, and SunWay 2 solar project.
3. Biglow 2 is commercially operational and in service. All of the project's turbines were producing power and connected to the transmission facilities as of August 17, 2009. Exhibit A shows the details of when each turbine was commissioned.
4. SunWay 1 was in service and producing power on December 16, 2008.
5. SunWay 2 consists of photovoltaic thin-film systems placed on the roofs of three separate buildings. The systems on two of those rooftops were commercially operational and in service on December 31, 2008, and the third system was commercially operational and in service on January 9, 2009.

SIGNED this 26 day of August, 2009.

STEPHEN QUENNOZ
Vice President, Power Supply/Generation
Portland General Electric Company

SUBSCRIBED AND SWORN to before me this 26 day of August, 2009.

Notary Public for Oregon
My Commission Expires: October 20, 2010
