In the Matter of

PORTLAND GENERAL ELECTRIC  
COMPANY

Schedule 122 Update to Renewable  
Resources Automatic Adjustment Clause

CONFERENCE MEMORANDUM  
AND  
RULING

**DISPOSITION: SCHEDULE AMENDED**

On July 22, 2009, Portland General Electric Company (PGE) filed a motion to amend the procedural schedule in this docket and requested expedited consideration of the motion. PGE asks for a ruling changing the due date for Commission Staff's and intervenors' opening testimony from July 22 to August 11, 2009. PGE states that the extension is necessary because of "accounting issues that need to be addressed" and settlement ideas that "need to be explored." PGE indicates that all active parties support its motion and that the parties will attempt to agree on further revisions to the procedural schedule to accommodate the extension.

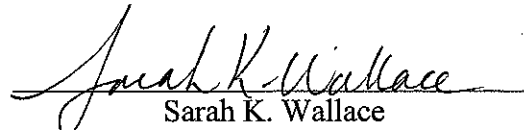

PGE filed Advice No. 09-06, the tariff revision that initiated this docket, on April 1, 2009. PGE requested a January 1, 2010 effective date, which requires the Commission to issue an order in this docket by the end of December 2009. Given the time constraints and the lack of information in PGE's motion regarding the reasons for the requested extension, a telephone conference was held on July 22, 2009. Representatives from PGE, Commission Staff, the Industrial Customers of Northwest Utilities, and the Citizens' Utility Board of Oregon participated in the conference.

During the telephone conference, the parties agreed that PGE would file supplemental opening testimony addressing certain accounting changes. The supplemental testimony must include a revised Exhibit 201 and narrative testimony explaining the revisions.

The parties also agreed to the following revised schedule, which I adopted:

PGE Files Supplemental Opening Testimony	July 27, 2009
Staff and Intervenors File Opening Testimony	August 11, 2009

Dated this 23rd day of July, 2009, at Salem, Oregon.
