C. Oregon PSR waives paper service.

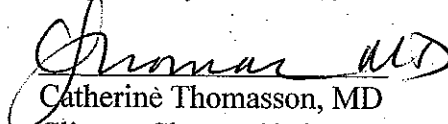

D. Oregon PSR is a private non-profit organization of more than 1400 members concerned about the public health and future of Oregon. For the past 15 years, Oregon PSR has advocated for policy to address the threat of climate change and its impact to public health. We feel that cost-effective conservation, reducing reliance on fossil fuels particularly coal and investment in clean energy will result in a reduction in human produced greenhouse gases which are causing climate change.

E. Oregon PSR has special interests in this proceeding in ensuring that PGE'S IRP contributes to climate change mitigation to address public health issues.

Oregon PSR's involvement will not unreasonably broaden the issues, burden the record nor delay the proceeding. For the reasons stated above, Oregon PSR respectfully requests that it be allowed to intervene in this matter.

Dated this twenty-sixth day of November, 2009

Respectfully submitted,

Catherine Thomasson, MD
