RESPONSES

Bench Request No. 5. For each OUSF-supported exchange: all non-ILEC providers of terrestrial-based broadband services, including, but not limited to, cable and wireless providers.

- a. For each such provider, information as to whether it offers telephony services over those facilities.
- b. For each such provider, whether such telephony services are offered over its own facilities or via resale of ILEC-provided facilities.
- c. For each such provider, the market penetration of broadband services.

Response: Verizon Business Global LLC dba Verizon Business (“Verizon”) objects to this request to the extent it requests information that the company does not maintain in the ordinary course of business and would be burdensome to produce. In particular, Verizon does not maintain information about its broadband services based on “each OUSF-supported exchange,” a phrase that is not defined and is ambiguous. Verizon also objects to the request to the extent it requests confidential and proprietary information. Subject to and without waiving its objections, Verizon responds as follows:
