**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1482

In the Matter of

PORTLAND GENERAL ELECTRIC
COMPANY

Application for Deferral of Expenses
Associated with a Photovoltaic Volumetric
Incentive Rate Pilot.

**APPLICATION FOR DEFERRAL
REAUTHORIZATION**

Pursuant to ORS 757.259, ORS 757.365, ORS 469A.120, ORS 757.210, OAR 860-027-0300, OAR 860-084-0380, and OAR 860-084-0390, Portland General Electric Company (“PGE”) Schedule 137 is an automatic adjustment clause (“AAC”) for costs related to PGE’s Photovoltaic Volumetric Incentive Rate Pilot (“PV VIR Pilot” or “Pilot”). Oregon Revised Statute 757.365(10) allows for the recovery of all prudently incurred PV VIR costs in rates. As necessary to enable cost recovery under the AAC, PGE hereby requests authorization to continue an AAC deferral pursuant to Public Utility Commission of Oregon (the “Commission” or “OPUC”) Order Nos. 19-283, 20-195, and 21-196. PGE requests this reauthorization to be effective May 27, 2022 through May 26, 2023.

I. Deferral History:

Under Docket No. AR 538, the Commission promulgated its Division 84 rules for the PV VIR Pilot. Docket UM No. 1452 set forth additional implementation requirements through OPUC Orders detailed below, the most recent being Order Nos. 19-283, 20-195, and 21-196. The Pilot, required by state law, provides payments to retail electric customers for electricity generated by permanently installed solar photovoltaic energy systems through PGE Schedules 215, 216, and 217. This deferral allows PGE to recover costs associated with the Pilot, through an AAC under

PGE Schedule 137, Customer Owned Solar Payment Option Cost Recovery Mechanism.

PGE has received reauthorization for this deferral since 2011, as shown in Table 1 below:

Table 1: UM 1482 Commission Authorization

Order No.	Approval Date
11-059	2/16/2011
11-281	8/01/2011
12-202	5/07/2012
13-250	7/02/2013
14-271	7/22/2014
15-185	06/09/2015
17-304	06/10/2017
18-259	07/03/2018
19-283	8/29/2019
20-195	6/18/2020
21-196	6/15/2021

II. OAR 860-027-0300 Requirement (3):

- a. Description of Utility Expense for which deferred accounting is requested.

The incremental utility expenses consist of volumetric incentive payments and/or retail bill offsets to participants, administrative costs associated with the PV VIR Pilot operations, data collection, development costs for billing and website, customer surveys, and regulatory reporting requirements. Credits to the associated balancing account include deposit forfeitures, interconnection application fees, customer charges, assignment fees, and the avoided energy value. Amounts in the balancing account accrue interest at the Commission-authorized rate of return for deferred accounts.

- b. Reasons for Deferral

PGE seeks deferral reauthorization for the reasons stated in Section I, above.

- c. Proposed accounting for recording amounts deferred

PGE proposes no changes in the established accounting for the deferred amount.

- d. Estimate of Amounts to be recorded for the next 12 months.

The amounts to be deferred consist of incremental costs of the Pilot for: 1) VIR payments to participants including any retail electricity service bill offset amounts; and 2) program costs incurred to implement and administer the requirements for the Pilot as described in Section II (a) above. For both cost categories, the amounts deferred depend upon actual participation levels and PV system sizes of participants in the Pilot. PGE estimates incremental costs may range from \$7.0 million to \$8.0 million for the deferral period, May 27, 2022 through May 26, 2023, consisting largely of VIR payments to participants.

e. Notice

A copy of the notice of application for reauthorization of deferred accounting treatment and a list of persons served with the notice are provided as Attachment A (OAR 860-027-0300[6]).

III. OAR 860-027-0300 Requirement (4), Reauthorization:

a. Description of deferred accounting entries

See II c., above.

b. The reason for continuing the deferred account

PGE seeks approval to continue to defer incremental costs associated with the Pilot not currently in rates. The granting of this reauthorization request will minimize the frequency of rate changes and match appropriately the costs borne by and benefits received by customers. This deferral should be continued and is warranted because ORS 757.365 requires PGE to offer the Pilot and thus incur the costs to implement and operate the Pilot. PGE requests an effective date of May 27, 2022 through May 26, 2023, as the deferral reauthorization period.

V. Summary of Filing Conditions:

Information related to future amortization is listed below:

- a. Earnings Review: PGE Schedule 137 recovers costs associated with the Solar Payment Option Pilot not otherwise included in rates. Because this schedule is an AAC as provided under ORS 469A.120 and defined in the Renewable Portfolio Standards, ORS 757.210, an earnings review is not applicable to this deferral. See also PGE Schedules 215, 216, and 217.
- b. Prudence Review: Staff may review deferred costs as appropriate.
- c. Sharing (Percent): All prudently incurred costs are to be recoverable by PGE with no sharing mechanism.
- d. Spread/Rate Design: In Docket No. UE 237, Commission Staff and parties agreed that PGE Schedule 137 costs should be allocated to each schedule (all customer classes) based on an equal percent of generation revenue applied on a cents per kilowatt-hour basis.
- e. Three Percent test: The amortization of the deferred costs will be subject to the three percent test in accordance with ORS 757.259(7) and (8), which limits aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding year.

VI. Conclusion.

For the reasons stated above, and as necessary to enable cost recovery under an AAC, PGE requests permission to continue to defer expenses associated with the Solar Payment Option Pilot effective May 27, 2022, through May 26, 2023.

DATED May 26, 2022.
