Comments - I wasn't sure who they should go to. The docket shows Kathy Zarate as the last principal/case manager.

Matt & Kathy,  
Please let me know which of you wants to receive these comments or if you both want them.

Thanks, Deanna

**Subject:** Sandra Fox Public Comment for Cascade Natural Gas Filing 10-1-2022 Conservation Alliance Plan

Sandra said she would like to submit her comments regarding the Cascade Natural Gas Filing that was submitted on 10-1-2022. She said it has to do with the Conservation Alliance Plan. She said it should not be a consumer cost and that the company should have to pay their own costs for conforming to this type of thing. This should come out of their own profits. They should also have to prove to the commission what the actual costs are of what transportation costs are and most consumers don't agree with interstate natural gas pipe lines, that are actually fracked gas which is highly toxic. We don't need it and shouldn't have it. Additionally a raise of 25.23% is too much for consumers, it's outrageous. We shouldn't have to pay for environmental safety.

Sandra said her phone number is 541-675-8323 if anyone at the commission has questions for her but she did not want to provide her address.

Thank you,
