2. Applicant will not own any transmission facilities other than those interconnection facilities that are necessary to effect the wholesale sale of electric energy from the Facility, consistent with Commission precedent construing the definition of “eligible facility” under Section 32(a)(2) of PUHCA 1935.
3. No rate or charge for, or in connection with, the construction of the Facility, or for electric energy produced thereby, was in effect under the laws of any State on October 24, 1992 and, therefore, no State determination is required with respect to this filing.
4. There are no lease arrangements through which Applicant will lease the Facility to a public utility company or any other party.
5. Applicant does not sell electricity at retail to any customer. Accordingly, the Facility does not rely on the exception provided by Section 32(b) of PUHCA 1935 regarding foreign sales of power at retail.
6. No portion of the Facility will be owned or operated by an “electric utility company” that is an “affiliate” or “associate company” of Applicant as those terms are defined in PUHCA 2005.

In accordance with Section 366.7(a) of the Commission’s regulations, a copy of this Notice is concurrently being served upon the Colorado Public Utilities Commission and the Oregon Public Utility Commission. A form of notice of Applicant’s notice of self-certification suitable for publication in the *Federal Register* is also attached.

of renewable energy credits (“RECs”) associated with the electricity produced by the Facility. The Commission has determined that the sale of RECs associated with an eligible facility is an activity incidental to an EWG’s business of owning and operating an eligible facility and selling electricity at wholesale. **Docket No. EG17-\_\_\_\_-000**

**NOTICE OF FILING**

Take notice that on [\_\_\_\_], 2017, pursuant to the Public Utility Holding Company Act of 2005, and section 366.7 of the regulations of the Federal Energy Regulatory Commission (FERC or Commission), 18 C.F.R. § 366.7 (2016), Twin Buttes Wind II LLC (Applicant) submitted a notice of self-certification as an exempt wholesale generator, as defined in section 366.1 of the Commission's regulations, 18 C.F.R. § 366.1.

Applicant is constructing and will own or lease and operate an approximately 75 MW electric generating facility and certain interconnection facilities located in Prowers County, Colorado (Facility). The Facility will be interconnected to the electric distribution system owned and operated by the Public Service Company of Colorado.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 C.F.R. 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s).
