RE: Pacific Power's 2011 Net Metering Report for Oregon

Enclosed for filing by PacifiCorp d/b/a Pacific Power is the Net Metering Report for calendar year 2012. This report is submitted in compliance with OAR 860-039-0070(2).

Pacific Power would like to inform the Commission that the current installed capacity of net metering systems equals 142 percent of "one half of one percent of the utility's...or district's historic single hour peak load." Oregon Statute 757.300(6) allows the Commission to limit the expansion of net metering "in order to balance the interests of retail customers" when that limit has been reached.

Informal inquiries on this filing may be directed to Bryce Dalley, Director, Regulatory Affairs & Revenue Requirement at (503) 813-6389.

Sincerely,

William R. Griffith
Vice President, Regulation
