Re: RE 77 (12) PGE Annual Boardman Decommissioning Update in compliance with Order  
No. 11-242 in UE 230

Dear Filing Center:

On July 5, 2011, Commission Order No. 11-242 approved Portland General Electric Company's (PGE) request to revise Schedule 145 to adjust depreciation rates related to the planned Boardman plant closure changing from the year 2040 to the year 2020. The provisions of this Order require that PGE submit an annual informational report, beginning June 15, 2012 to all parties in the UE 230 proceeding that includes:

- Current balance of dollars collected for decommissioning; and
- Any relevant changes to PGE forecasts of future decommissioning costs.

Attachment 1, "2021 Boardman Decommissioning Update," is PGE's informational report.

If you have any questions or require further information, please call me at (503) 464-7488. Please direct all formal correspondence, questions, and requests to the following email address [pge.opuc.filings@pgn.com](mailto:pge.opuc.filings@pgn.com).

Sincerely,

---

The total collection from customers for future Boardman decommissioning costs as of 5/31/2021 is \$61,712,815 (out of a currently estimated \$63 million). Pursuant to the provisions of Schedule 145, the current monthly decommissioning accrual for the remainder of 2021 is \$166,312.

PGE is currently in the process of negotiating a final contract agreement with an experienced demolition contractor. Based on the current negotiations and expectations for project costs, PGE does not anticipate needing to continue Schedule 145 collections for 2022. We plan to provide additional information and an updated status of the project in conjunction with our annual update to Schedule 145 on or before November 1, 2021.
