Event Description

Starting February 7, 2014 and continuing for almost a week, a series of winter storms swept through northwest Oregon with heavy snow accompanied by arctic east winds and followed by freezing rain. The south and central Willamette Valley were hardest hit, with as much as two feet of snow in some areas, covered by a layer of ice. Damage to Pacific Power facilities (overwhelmingly due to snow- or ice-laden trees and branches falling) created power outages throughout the region resulting in a major event through February 12. At the peak of the event, February 8, just after 9:00PM, 19,550 customers were without service.

Restoration

One hundred and fifty employees and contractors worked to restore service around Lebanon, Corvallis, Albany, Junction City, Cottage Grove, Dallas, Sweet Home and Stayton. Restoration crews repaired multiple spans of downed wire and replaced numerous transformer fuses and cutouts. Some customers experienced multiple outages during the storm, especially in the Cottage Grove/Junction City operating area.

Overall, 48% of customers were restored within 3 hours. All power to customers was restored by shortly after 11:00PM on February 12.

¹ Customer Average Interruption Duration Index = customer minutes lost divided by customers sustained.
