

RE 112 e-FILING REPORT COVER SHEET

REPORT NAME:

PGE's Major Event Exclusion for April 7 and 8, 2017

COMPANY NAME:

Portland General Electric

DOES REPORT CONTAIN CONFIDENTIAL INFORMATION?

No

If known, please select designation:

RE (Electric)

Report is required by:

OAR 860-023-0161

Is this report associated with a specific docket/case?

No

Key words:

PGE's Major Event Exclusion for April 7 and 8, 2017

If known, please select the PUC Section to which the report should be directed:

Re: Major Event Exclusion
Period: April 7-8, 2017

Portland General Electric (PGE) hereby submits this report in compliance with OAR 860-023-0161 which requires the electric company to file a report with the Commission within 30 business days after the conclusion of an event. This report provides a summary of the major storm event that occurred on April 7-8, 2017.

OAR 860-023-0161: Major Event Filing by Electric Companies

1. Description of the major event, the interruption causes, and factors that impacted restoration of service.

On April 7-8, 2017, PGE's entire service territory experienced a wind storm causing widespread outages. The Portland area experienced wind gusts of 56 mph, Salem experienced wind gusts of 60 mph, and Hillsboro experienced wind gusts of 61 mph.

The severe wind caused many tree-related outages. Uprooted trees and broken limbs caused damage to PGE's overhead equipment and poles which made restoration difficult.

2. The Reliability reporting area and geographic area impacted.

PGE's entire service territory was impacted by the high winds. Most outages were in PGE's Western service territory.

3. The total number of customers affected and the number of customers without service at periodic intervals.

At the peak of the storm, PGE had approximately 185,336 customers without power. During the storm, a total of 256,211 customers were affected.

4. The calculated SAIDI, SAIFI, and CAIDI impacts (i.e., “Event SAIDI¹, SAIFI², CAIDI³ and T_{med}⁴”) associated with the Major Event on a reliability reporting area and a system-wide basis.

The following table represents the calculated impacts for SAIDI, SAIFI, CAIDI, T_{med}, and system-wide basis totals:

	RELIABILITY REPORTING AREAS			SYSTEM-WIDE BASIS
	EASTERN ¹	SOUTHERN	WESTERN	PGE SERVICE TERRITORY
<i>SAIDI</i> ²	48.61	46.49	90.51	185.61
<i>SAIFI</i> ³	0.113	0.060	0.125	0.297
<i>CAIDI</i> ⁴	431	773	726	624
<i>Customers out at peak</i>	57,406	34,664	93,266	185,336
<i>T med</i>				4.84

¹ Eastern and Central regions are now combined and represented as the Eastern region.

² SAIDI - System Average Interruption Duration Index

³ SAIFI - System Average Interruption Frequency Index

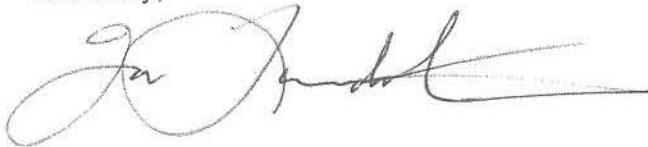

⁴ CAIDI - Customer Average Interruption Duration Index

Additional Reporting Related to the April 7-8, 2017 Storm Event:

Attachment A provides a summary of outages within PGE's service territory lasting 5 hours or longer.

For questions regarding this filing, please contact Kalia Savage at (503) 464-7432. Please direct all formal correspondence and requests to the following email address pge.opuc.filings@pqn.com.

Sincerely,

A handwritten signature in black ink, appearing to read "James Landstrom", with a long horizontal flourish extending to the right.

James Landstrom,
Manager, Transmission and Distribution Asset Management
