Subject: Notice of Site Visit - Pigeon Point Water System

This purpose of this email is to inform the customers of Pigeon Point Water System that the Commission will be conducting a site visit of the water facilities tomorrow morning, August 1, 2013, at 8AM. The purpose of the visit will be to gather information to be addressed at the hearing scheduled for 10AM that morning. The Commission has authority under ORS 756.075 to enter any premises to perform inspections and tests required to carry out its regulatory functions.

At the site visit, I will be joining members of the Commission's Water Division Staff, representatives from the Department of Justice, and a certified water operator from Oregon Water Services.

Michael Grant
Chief Administrative Law Judge
Public Utility Commission of Oregon
