**Re: Northwest Pipeline LLC**  
Docket No. RP16-577

Dear Ms. Bose:

Pursuant to Part 154 of the regulations of the Federal Energy Regulatory Commission (“Commission” or “FERC”), Northwest Pipeline LLC (“Northwest”) hereby tenders for filing and acceptance the following tariff sheets as part of its FERC Gas Tariff (“Tariff”) Fifth Revised Volume No. 1:

Third Revised Sheet No. 225-B  
Fifth Revised Sheet No. 265-D  
Sixth Revised Sheet No. 279  
Sixth Revised Sheet No. 279-A  
Sixth Revised Sheet No. 279-B

Seventh Revised Sheet No. 279-C  
Fourth Revised Sheet No. 279-D  
First Revised Sheet No. 279-E  
Fifth Revised Sheet No. 280

### **Statement of Nature, Reasons and Basis for the Filing**

On February 1, 2016, in this docket, Northwest filed to comply with Order No. 587-W<sup>1</sup> by submitting proposed tariff sheets to incorporate Version 3.0 of the North American Energy Standards Board (“NAESB”) Wholesale Gas Quadrant’s (“WGQ”) consensus standards into Northwest’s Tariff. On March 29, 2016 (“March Order”),<sup>2</sup> the Commission accepted Northwest’s filing subject to Northwest remedying certain compliance obligations.

Specifically, Northwest was directed to (1) Remove the asterisk from Standard 1.3.15; (2) Remove Standards 2.4.12, 2.4.13, 2.4.14, 2.4.15, and 2.4.16 from the section titled "Standards for which Waiver or Extension of Time to Comply have been granted;" (3) Include the text of Standard 1.3.2(vi); (4) Either incorporate Standards by reference or include the text of the Standards; (5) Remove Standards 2.4.12 through 2.4.16, and 5.3.37 from the section titled “Standards not Incorporated by Reference and their Location in Tariff;” (6) Accurately reflect adoption of Standards

revised by Minor Corrections MC15003, MC15004, MC15005, MC15009 and MC15012 all marked with an asterisk; and (7) Revise the sheet references for Standards 5.3.13, 5.3.14, and 5.3.26 in the section titled “Standards not Incorporated by Reference and their Location in Tariff.”

Northwest has made the appropriate Tariff changes to comply with the Commission’s directive above with the following clarifications.

Northwest was directed in No. 4 above to either incorporate Standards by reference or include the text of the Standards. In order to comply with this direction and after consulting with Commission Staff to provide more clarity, Northwest proposes to remove General Terms and Conditions (“GT&C”) Section 26.3 “Location of Version 3.0 NAESB WGQ Standards in this Tariff,” and include the standards that are not incorporated by reference into GT&C Section 26.1 under the heading “Standards not Incorporated by Reference and their Location in the Tariff.”

Section 26.3 was added to Northwest’s Tariff in its Order No. 587-U<sup>3</sup> compliance filing to incorporate into Northwest’s Tariff Version 1.9 of the NAESB WGQ consensus standards. As a convenience to Tariff users, Northwest included the table in GT&C Section 26.3 to allow readers a reference to locate NAESB Standards in the Tariff as well as Standards that were included verbatim in the Tariff.<sup>4</sup> Northwest is now proposing to delete the table and include in GT&C Section 26.1 the standards not incorporated by reference in order to more clearly identify those standards which are not incorporated by reference in the Tariff, and to prevent any confusion that may have been caused by including similar information in both Sections 26.1 and 26.3 of the Tariff.

In addition, in discussions with Commission Staff, directive No. 5 above was intended to include the removal of Standard 5.3.27 and not Standard 5.3.37. Since Northwest has removed Section 26.3, this change is moot. Finally, Northwest has deleted an errant reference to Standard 5.3.27 on Sheet No. 265-D.

### ***Filings Pending Before the Commission***

In compliance with 18 CFR § 154.204(f), Northwest states that it has no other tariff filings pending before the Commission that may significantly impact this filing.

### ***Effective Date and Waiver Request***

Northwest requests that the proposed tariff sheets filed herein be made effective April 1, 2016, in accordance with Order No. 587-W and the March 29 Order. Northwest requests that the Commission grant any waivers it may deem necessary for the acceptance of this filing.

~~General Terms and Conditions of this Tariff~~  
~~Verbatim~~

GENERAL TERMS AND CONDITIONS (Continued)

26. NAESB WGQ STANDARDS AND ELECTRONIC COMMUNICATIONS (Continued)

26.43 Electronic Communications. Electronic communication capabilities will be available on a nondiscriminatory basis to any party.

Transporter will provide timely information pertaining to arranging for transportation and storage services, including informing all interested Shippers or other parties about the availability of capacity at Receipt Points, on the mainline, at delivery points and in storage facilities, and whether the capacity is available from the pipeline directly or through capacity release. In addition, Transporter will report design day displacement capacity needed at various constraint points. Transporter will also maintain and provide access to bidding information pertaining to released capacity, and Order No. 497 compliance information. Transporter will update and maintain this information on its Designated Site in accordance with 18 CFR Section 284.12(b)(3). Any party may access this information on Transporter's Designated Site.

There is no fee associated with the use of Transporter's Designated Site.

26.54 Information to be Posted. Via Transporter's Designated Site, Transporter will provide to all parties information relevant to the availability of services in accordance with 18 CFR Section 284.13.

26.65 Transporter will also support the NAESB approved EDI Standard Business Practice Data Sets referenced below, where applicable, subject to the execution of a Trading Partner Agreement between Transporter and requesting party:

NAESB WGQ Standards:

- 0.4.1\*

GENERAL TERMS AND CONDITIONS (Continued)

26. NAESB WGQ STANDARDS AND ELECTRONIC COMMUNICATIONS (Continued)

26.~~76~~ Electronic Communication. Electronic communications between Transporter and Shipper or other parties will be binding and enforceable in the same manner and to the same extent as written communications, and evidence of electronic communications, if introduced on paper, will be admissible to the same extent as other business records originated in written form. Any provisions of this Tariff requiring that certain matters between Transporter and Shipper be written or in writing are satisfied by Transporter and Shipper utilizing electronic communications through Transporter's Designated Site or through other mutually agreed forms of electronic communications.

26.~~87~~ Disclaimer. Transporter will not be liable for any damages caused by the incompleteness or inaccuracy of any information posted to Transporter's Designated Site except to the extent such inaccuracy or incompleteness is shown to be the result of negligence or misfeasance of Transporter. Transporter will not be liable for errors in any subsequent re-posting by a third-party vendor.

26.~~98~~ Electronic Trading Partner Communications. Transporter will support NAESB WGQ approved EDI communications through Transporter's Designated Site.

NAESB WGQ Nominations Related Standard 1.2.2 will apply.

26.3 Electronic Communications. Electronic communication capabilities will be available on a nondiscriminatory basis to any party.

Transporter will provide timely information pertaining to arranging for transportation and storage services, including informing all interested Shippers or other parties about the availability of capacity at Receipt Points, on the mainline, at delivery points and in storage facilities, and whether the capacity is available from the pipeline directly or through capacity release. In addition, Transporter will report design day displacement capacity needed at various constraint points. Transporter will also maintain and provide access to bidding information pertaining to released capacity, and Order No. 497 compliance information. Transporter will update and maintain this information on its Designated Site in accordance with 18 CFR Section 284.12(b)(3). Any party may access this information on Transporter's Designated Site.

There is no fee associated with the use of Transporter's Designated Site.

26.4 Information to be Posted. Via Transporter's Designated Site, Transporter will provide to all parties information relevant to the availability of services in accordance with 18 CFR Section 284.13.

26.5 Transporter will also support the NAESB approved EDI Standard Business Practice Data Sets referenced below, where applicable, subject to the execution of a Trading Partner Agreement between Transporter and requesting party:

26.6 Electronic Communication. Electronic communications between Transporter and Shipper or other parties will be binding and enforceable in the same manner and to the same extent as written communications, and evidence of electronic communications, if introduced on paper, will be admissible to the same extent as other business records originated in written form. Any provisions of this Tariff requiring that certain matters between Transporter and Shipper be written or in writing are satisfied by Transporter and Shipper utilizing electronic communications through Transporter's Designated Site or through other mutually agreed forms of electronic communications.

26.7 Disclaimer. Transporter will not be liable for any damages caused by the incompleteness or inaccuracy of any information posted to Transporter's Designated Site except to the extent such inaccuracy or incompleteness is shown to be the result of negligence or misfeasance of Transporter. Transporter will not be liable for errors in any subsequent re-posting by a third-party vendor.

26.8 Electronic Trading Partner Communications. Transporter will support NAESB WGQ approved EDI communications through Transporter's Designated Site.

NAESB WGQ Nominations Related Standard 1.2.2 will apply.
