Roome Telecommunications Inc
PROGRESS REPORT ON SERVICE QUALITY IMPROVEMENT PLAN

PREAMBLE

This document is an integral part of the Company's 2016 Annual Report, as attached to Form 481. It is in compliance with § 54.313(a)(1) adopted in the FCC's USF/ICC Transformation Order (11-161). This document also incorporates further clarifications identified in subsequent Reconsideration Orders, as applicable, that were in effect at the time the Annual Report was due by Rule to the requisite regulatory authorities.

Roome Telecommunications Inc ("RTI") advises that the environment in which the Company operates in dynamic, not static. As a result, certain network targets identified in its initial 5 Year Network Improvement Plan filed in 2015, may be modified in response to regulatory decisions that have been subsequently adopted, and as their implication upon the Company's financial viability in providing the required services and service level quality became known.

Modification to the network plan may also have been taken due to changes in technology, vendor-driven support, weather, or emergency related contingencies.

Targets not met or changed since the initial 5 Year Plan filing are identified and reasons provided for those changes.

UNIVERSAL SERVICE SUPPORT RECEIVED IN 2016

Per the Universal Service Administrative Company (USAC), during the calendar year 2016, RTI received a total of \$112,604 (as available from USAC on 6/09/16) in USF support funds. The breakdown of the funding for the year was:

- \$ 0 High Cost Loop Support,
- \$ 76,920 Connect America Fund-Intercarrier Compensation Support
- \$ 35,684 Interstate Common Line Support

Universal Service Support funds are used to: 1) maintain, upgrade, and improve the Company's network and, 2) cover operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband within the authorized serving area.

USF support will continue to be included in the Company's current revenue accounts and forward-looking projections. Revenues, in the aggregate, are used for both capital expenditures as well as to cover operating expenses and fixed costs incurred to obtain capital from lenders. The Company does not segregate USF separately for purposes of capital and operating expenditures; USF is expended in the same proportion as the Company's aggregated revenue amount.

The proportionate share of USF expenditures in 2016 to date for CAPEX is estimated to be \$0 ; for OPEX \$112,604 (100%).

In the accompanying 2016 project detail, expenditures for network improvements sometimes involve service quality, coverage and capacity as an integrated improvement project and are not mutually exclusive from one another. In terms of cost, projects involving multiple qualifiers are of equal dollar equivalence. Where a project involves a single qualifier, it is so noted.
