**RE: Advice No.118, Asotin Telephone Company; PUC Or. No. 2
Private Line Service Revisions**

To Whom It May Concern:

Included in this submission are the following tariff pages for Asotin Telephone Company:

**Section I
Section XI**

**Second Revised Sheet 4
Second Revised Sheet i
Second Revised Sheets 2 & 3**

The purpose of this filing is to revise the concurrence for interexchange Private Line Services from Qwest Corporation to the Company's interstate Special Access tariff. The Company wishes to provide Private Line Services from a tariff that has an offering similar to how they are provisioning the service from a company-wide perspective. The concurrence is for terms and conditions. The rates for the services are listed. There are currently no customers subscribing to the old services/rates under the Qwest Price List and/or Tariff, therefore there is no revenue impact with this change.

The proposed effective date is April 7, 2016.

If you have any questions, please contact me at (608) 664-4169.

Sincerely,

A handwritten signature in black ink that reads "Rachelle A. Ladwig". The signature is written in a cursive style and is positioned above the printed name and title.

PRIVATE LINE SERVICES

(T)

A. INTEREXCHANGE PRIVATE LINE SERVICES

(C)

1. General Description

Interexchange Private Line Services (PLS) is telecommunications service between two or more termination points within the LATA where one termination point is located within the Company's local exchange area and the other termination point is located in another local exchange area. PLS is not connected to, or otherwise made available to, any local exchange switching facility.

2. Concurrence Statement

The Company concurs in its interstate special access service tariff for terms and conditions, together with any amendments and successive issues, for the purpose of providing interexchange private line services and channels.

This concurrence is limited to services that are at or below a speed of 44.736 Mbps. Any service requiring speeds above 44.736 Mbps will be provided on an ICB basis.

The Company hereby expressly reserves the right to cancel this statement of concurrence at any time when it appears that such cancellation is in the best interest of the company.

Requests for Private Line Services will be furnished subject to the availability of central office equipment and appropriate outside plant facilities.
