2010					167	171			
2009					440	458			
2008					44	78			

Program Summary

1. Describe your Division 24 inspection program

The City follows the OPUC’s Division 24 rules.

2. Describe how you prioritize repairs

Any dangerous situation is dealt with immediately.

3. Describe how you address immediate hazards for both your conditions and any attacher’s conditions

If the hazard is ours, it is dealt with immediately. If it is an attacher’s, it is dealt with immediately, or, we will stand by until the attacher arrives on site to repair.

4. Describe how you communicate non-immediate hazard conditions to attachers

We provide the attacher with a location and description of the issue.

5. Describe the state of electronic record keeping you have had over the last five years

We are in the process of converting our records over to electronic version.

6. Outline your current plans for any automation of inspection, correction or asset information (i.e. GIS plans or changes to your asset management process)

We have implemented a drone inspection program, that is very thorough, and has been beneficial in the inspection program.

If there are questions about the short form or its deadline, please reach out.

Heide Caswell

NOTES for using this Template:

- You may adjust heading and subheading settings throughout the document to fit your needs.
- You may use numbering formats to group information if preferred.
- For colored fonts and graphs, stay in the color family of the PUC logo
 - Blue – RGB 0-87-155
 - Green – RGB 144-175-62
- If you have questions or need PUC images, feel free to contact the Public Information Officer.
