Correction Plan for Commission Review

Re: TDS Telecom dba Bendbroadband (formerly Crestview Cable Communications)

OPUC Safety Staff,

During the TDS Telecom acquisition of Crestview Cable Communications, now known as Bendbroadband, we learned that there was no inspection program as required by (OAR) 860-024-0011 with that company. Bendbroadband is currently working with the pole owners in our service territory to complete 100% of inspections on the 2,614 poles we are attached to. This will include the cities of Madras, Prineville and Crooked River Ranch, Oregon. The process has already begun to inspect and correct any NESC conditions that are the responsibility of Crestview Cable Communication on these joint use poles. We will be working to correct these issues within one (1) year. We will issue the OPUC an updated report at that time (approx. February 2019).

Please feel free to contact me at any time.

Thank you,
