RE: RE 176—PacifiCorp's Notice

In accordance with the Public Utility Commission of Oregon's (Commission) approval of Advice No. 16-012 authorizing updates to Schedule 272 Renewable Energy Rider – Optional Bulk Purchase Option (Schedule 272), PacifiCorp d/b/a Pacific Power provides the following notice.

Schedule 272 is a voluntary option under PacifiCorp's Blue Sky Program that allows large non-residential customers to enter into individually-negotiated arrangements with the company for purchase and retirement of unbundled renewable energy certificates (RECs) on their behalf. Schedule 272 requires PacifiCorp to notify the Commission when PacifiCorp's purchase of RECs under this schedule exceeds 100 aMW.

In June 2018, PacifiCorp executed an agreement with a customer that will result in the total Schedule 272 unbundled RECs exceeding 100 aMW. PacifiCorp will provide information regarding total participation on Schedule 272 and copies of individually-negotiated arrangements in the annual report required by Special Condition 9 of Schedule 272.

Please direct any questions on this filing to Natasha Siores, Manager, Regulatory Affairs at (503) 813-6583.

Sincerely,

Etta Lockey
Vice President, Regulation
