RE: UE 335 - PGE Minimum Filing Requirements

Commission Order No. 08-505 in Docket No. UE 198 adopted a list of Minimum Filing Requirements (MFRs) for Net Variable Power Cost (NVPC) proceedings. The MFRs define the documents PGE will provide in conjunction with the initial and update filings in its Annual Power Cost Update Tariff and general rate case proceedings.

Enclosed are an original and three courtesy copies of the MFRs for PGE's initial 2019 general rate case filing submitted February 15, 2018, in Docket No. UE 335. The MFRs include "supporting documents and work papers" for the following: forward curve inputs, load inputs, thermal plant inputs, hydro inputs, electric and gas contract inputs, wheeling inputs, wind power inputs, ancillary services, new items and enhancements, miscellaneous, and historical operating data.

Attachment 1 is one (1) CD containing the confidential MFRs. Attachment 1 is protected information subject to Protective Order No. 18-047. Attachment 2 is one (1) CD containing the non-confidential MFRs.

If you have any questions, please feel free to contact Greg Batzler at (503) 464-8644. Please direct all formal correspondence and requests to the following e-mail address: pge.opuc.filings@pgn.com.

Sincerely,

A handwritten signature in black ink that reads "Jay Tinker".
