NIPPC is a trade association whose members include private industry participants active in the Pacific Northwest and Western energy markets. The purpose of NIPPC is to represent the interests of independent power producers and marketers in developing rules and policies that help achieve a competitive electric power supply market in the Pacific Northwest.

NIPPC has a substantial interest in this proceeding, because any Commission decision regarding Portland General Electric Company's ("PGE") request for proposal ("RFP") could have a significant impact on PGE's next major resource acquisition. Independent power producers and electricity service suppliers, including NIPPC members, may participate in PGE's next RFP, and this proceeding can help ensure that the process is fair and balanced.

NIPPC has participated in numerous regulatory proceedings intended to promote competitive markets, including the Commission's bidding guidelines, and the utilities' previous requests for proposals to add resources. NIPPC's intervention will assist the Commission in resolving the issues and will not unreasonably broaden the issues, burden

the record, or delay this proceeding. Finally, NIPPC's interest are not adequately represented by any other party in this proceeding.

WHEREFORE, NIPPC respectfully requests that the Commission grant its petition to intervene with full party status in this proceeding and to appear and participate in all matters as may be necessary and appropriate; and to present evidence, call and examine witnesses, cross-examine witnesses, present argument, and to otherwise fully participate in the proceedings.

Dated this 14th day of March 2018.

Respectfully submitted,

---
