NewSun is a Delaware limited liability company that successfully brought solar projects to commercial operation in Oregon and under Portland General Electric Company's (PGE's) standard power purchase agreement for qualifying facilities (QFs)

and owns current and prospective solar and storage projects that may execute standard power purchase agreements with PGE in the future. NewSun also participated in the workshops that occurred in connection with this docket that occurred in 2019. NewSun is seeking intervention on its own behalf and not as a member of a trade group or other organization.

NewSun has special knowledge or expertise that may assist the Commission in resolving the issues in this proceeding. NewSun has experience with PGE's standard contract and any changes made in this docket are likely to impact projects in Oregon. These outcomes could have a direct impact on NewSun's business. NewSun has participated in other regulatory dockets before the Commission including regarding PURPA implementation, avoided costs and interconnection. NewSun anticipates participating to the extent necessary to ensure its interests are protected. NewSun's interests are not adequately represented by any other party, and its participation will assist the Commission in resolving issues.

Based on the information provided above in compliance with the Commission's rules of procedures, NewSun requests approval to participate in these proceedings as an intervenor. NewSun's participation in this docket will not unreasonably broaden the issues, burden the record, or unreasonably delay this proceeding.
