**RE: Advice No. 19-016—Schedule 204—Oregon Solar Incentive Program Deferral
Supply Service Adjustment—Amendment and Less than Statutory Notice**

On November 13, 2019, PacifiCorp d/b/a Pacific Power filed Advice Letter 19-016 to revise Schedule 204, Oregon Solar Incentive Program Deferral Supply Service Adjustment, to amortize the deferral balance associated with the company's costs for the Oregon Solar Incentive Program (OSIP) deferred during the 12 months ended September 30, 2019. An Application for Less than Statutory Notice is included with this filing.

The company was recently notified by the Public Utility Commission of Oregon Staff that the company's November 13, 2019 filing contained a transposed number as corrected in the paragraph below:

During the OSIP program year, the company deferred approximately \$4.7 million, excluding interest, for the twelve months ended September 30, 2019. The deferral includes costs for program administration, incentive payments, and meter costs. The total deferral balance also reflects offsetting credits for customer charges and an avoided energy value. In addition, a residual credit balance of approximately \$147,000 relating to 2018 program cost amortization has reduced the balance that PacifiCorp is seeking to amortize in this filing. The total amount, including interest, proposed to be amortized in rates is \$4.9 million which is a ~~\$647,000~~ \$674,000 increase over the amount currently in rates.

There is no impact to the rates proposed in the company's initial filing on November 13, 2019.
