Re: UM 2046 PGE's Application for Deferral of Costs Associated with Annual Regulatory Fee

Enclosed for filing is Portland General Electric Company's Application for Reauthorization of Deferral of Costs Associated with Annual Regulatory Fee.

A Notice regarding the filing of this application has been provided to the parties on the UE 394 and UM 2046 service lists.

Parties who wish to receive a copy of this Application should review the Public Utility Commission of Oregon (OPUC) website.

Thank you for your assistance in this matter. If you have any questions or require further information, please call me at (503) 464-7488 or Greg Batzler at (503) 464-8644. Please direct all formal correspondence, questions, or requests to the following e-mail address pge.opuc.filings@pgn.com.

Sincerely,

A handwritten signature in black ink that reads "Jaki Ferchland". The signature is written in a cursive, flowing style with a prominent initial "J".

BEFORE THE PUBLIC UTILITY

COMMISSION OF OREGON

UM 2046

In the Matter of

PORTLAND GENERAL ELECTRIC
COMPANY

Deferral of Costs Associated with Annual
Regulatory Fee

**Portland General Electric Company
Application for Reauthorization of Deferred
Accounting**

Pursuant to ORS 757.259 and OAR 860-027-0300, Portland General Electric Company (PGE) respectfully requests a Public Utility Commission of Oregon (Commissioner OPUC) order reauthorizing PGE to defer, for later rate-making treatment, the costs associated with an increase in the annual regulatory fee (OPUC Fee) allowed by ORS 756.310 (Deferred Amount). PGE requests this deferral to be effective January 1, 2023 through December 31, 2023.

In support of this Application PGE states:

1. PGE is a public utility in the state of Oregon and its rates, service and accounting practices are subject to the regulation of the OPUC.
2. This application is filed pursuant to ORS 757.259 which allows the Commission, upon application, to authorize deferral of certain items.
3. Written communications regarding this Application should be addressed to:

I. OAR 860-027-0300(3) Requirements

The following is provided pursuant to OAR 860-027-0300(3):

A. Background Description

On May 24, 2019, Oregon Governor Kate Brown signed Senate Bill 68 (SB 68), which revises ORS 756.310 to allow the annual regulatory fee that is imposed on public utilities and telecommunications providers, for purpose of defraying costs of the OPUC, to increase from 0.3% to 0.45% of gross operating revenue. On February 26, 2020, and February 25, 2021, the Commission issued Order Nos. 20-054 and 21-066 increasing the OPUC annual regulatory fee to 0.35% and 0.375%, respectively, of gross revenue of the preceding year. The 0.375% fee was included within PGE's 2022 test year general rate case (Docket No. UE 394), with an effective date of May 9, 2022. Following the inclusion of the 0.375% rate within UE 394, the Commission issued Order No. 22-062 increasing the OPUC annual regulatory fee to 0.43% of gross operating revenue. In accordance with ORS 756.310, the Commission may issue another order to further increase the fee paid by public utilities. Because the current increase will remain in effect and the Commission could implement an additional fee increase in 2023, PGE requests authorization to continue to defer for later rate making treatment, the costs associated with the increase in the OPUC fee. The Commission approved PGE's initial request to defer the 2020 increase in the OPUC fee via Order No. 20-411, they approved PGE's first request to reauthorize the Deferred Amount in Order No. 21-081, and PGE's most recent request to reauthorize the Deferred Amount in Order No. 22-145.

B. Reasons for Deferral

Pursuant to ORS 757.259(2)(e) and for the reasons discussed above, PGE seeks continued deferred accounting treatment effective January 1, 2023, for costs associated with the current and possible additional increase in the annual OPUC Fee. In summary, the imposition of all regulatory fee increases since PGE's base prices were most recently established by Commission Order No. 22-129 will be subject to this deferral until PGE is able to fully include them in a general rate case. Granting this Application will minimize the frequency of rate changes and match appropriately the costs borne by and benefits received by customers.

C. Proposed Accounting for Recording Amounts Deferred.

PGE proposes to record the deferral as a regulatory asset in FERC Account 182.3 (Other Regulatory Assets) and credit the appropriate FERC expense accounts. When specific identification of the particular source of the regulatory asset cannot be reasonably made, then FERC account 407.4 (Regulatory Credits) will be credited. In the absence of a deferred accounting order, the costs would be debited to the appropriate cost accounts.

D. Estimate of Amounts to be Recorded for the Next 12 months.

PGE estimates that based on the current OPUC Fee rate, the amount to be deferred during the period beginning January 1, 2023 through December 31, 2023 to be approximately \$1.5 million. If, however, the Commission authorizes an additional increase in the regulatory fee in February 2023, that would represent an additional increase of approximately \$0.5 million.

E. Notice

A copy of the Notice of Application for Deferral of Costs Associated with an Increase in the OPUC Fee and a list of persons served with the Notice are attached to this Application as Attachment A. In compliance with OAR 860-027-0300(6), PGE is serving Notice of Application on the UE 394 and UM 2046 Service Lists.

II. Summary of Filing Conditions

A. Earnings Review

Recovery of the incremental regulatory fee will be not subject to an earnings review in accordance with Commission Order No. 20-411.

B. Prudence Review

A prudence review should be performed as part of the amortization filing.

C. Sharing

All prudently incurred costs are to be recoverable by PGE with no sharing mechanism.

D. Rate Spread/Rate Design

The rate spread/rate design will be consistent with the prevailing rate spread/rate design at the time of the amortization.

E. Three percent test (ORS 757.259(6))

The amortization of the deferred costs will be subject to the three percent test in accordance with the ORS 757.259(6) and (8), which limits aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding year.

IV. Conclusion

For the reasons stated above, PGE requests reauthorization to defer the costs related to the increase in the annual regulatory fee, effective January 1, 2023.

DATED this 22nd day of December 2022.

Deferral of Costs Associated with Annual
Regulatory Fee

**Notice of Portland General Electric
Company Application for
Reauthorization of Deferred
Accounting**

On December 22, 2022, Portland General Electric Company (PGE) filed an Application with the Public Utility Commission of Oregon (Commission or OPUC) for an Order reauthorizing deferral of costs associated with an increase in the OPUC Fee allowed by ORS 756.310.

Approval of PGE's Application will not authorize a change in PGE's rates, but will permit the Commission to consider allowing such deferred amounts in rates in a subsequent proceeding. Persons who wish to obtain a copy of PGE's application will be able to access it on the OPUC website.

Any person who wishes to submit written comments to the Commission on PGE's application must do so no later than January 16, 2023.

Dated this 22nd day of December 2022.
