UM 2111 Interconnection Modernization Workshop – Schedule Update

This letter announces scheduling changes in UM 2111. The January 31 and February 28 workshops will be canceled. The cancellation should allow for utility subject matter experts to attend the February 15 workshop. This workshop will also include a presentation from the Joint Utilities on their proposed redlines to the Oregon Administrative Rules (OARs).

Staff will look to combine the redlines received from all parties into a Staff proposal, following the February 15 meeting. This will consider all the parties' proposals but will reflect Staff's opinion on the best path forward. Staff intends to highlight both areas of consensus and discord on the issues. To provide the necessary time for this effort, the February 28 workshop will also be canceled. Staff's proposal will then be presented at the March 15 workshop for further discussion. The current remaining schedule for phase one of the investigation is shown below.

Combined Workstreams		
Description	Event Date	Workshop Topic
Workshop 11 Canceled	January 31, 2023	Fast track Screen Reports Tier 4 – Screen failure and export controls changes Remaining near term issues
Workshop 11	February 15, 2023	Joint Utilities present redlines Fast-track Screen Reports Remaining issues
Workshop 13 Canceled	February 28, 2023	TBD – Staff intends to open a rulemaking in the first/second quarter of 2023. Final approach is not yet determined, but these workshops could be held for that purpose.
Workshop 12	March 15, 2023	Staff proposal presented
Workshop 13	March 28, 2023	TBD – Staff intends to open a rulemaking in the first/second quarter of 2023. Final approach is not yet determined.

The following meeting information is for the remaining workshops.
