Vitesse is a limited liability company wholly owned by Facebook, Inc. Vitesse owns and operates a large data center in Prineville, Oregon (“Data Center”). The Data Center is within the service territory of PacifiCorp d/b/a Pacific Power (“PacifiCorp”) and is comprised of one or more facilities.

The future availability of PacifiCorp’s tariff Schedule 272 could have a direct and substantial impact on Vitesse, as Schedule 272 provides the only cost-of-service green power purchase option currently available to Vitesse. Schedule 272 has been crucial to enabling Vitesse and its parent company, Facebook, to meet its goal of supporting 100 percent of its operations with renewable energy and remain on track to achieve its goal of net zero emissions across its value chain in 2030. To date, Vitesse has used Schedule 272 to support its Prineville Data Center campus. Campus expansion construction efforts are currently underway, so Vitesse has a continued need for new Schedule 272 contracts in the near future. Thus, without intervention, Vitesse would not have the ability to participate in the proceeding, which could result in material harm.

Vitesse’s intervention will assist the Commission in resolving the issues and will not unreasonably broaden the issues, burden the record, or delay this proceeding. Finally, Vitesse’s interest is not adequately represented by any other party in this proceeding.

WHEREFORE, Vitesse respectfully requests that the Commission grant its petition to intervene with full party status in this proceeding and to appear and participate in all

matters as may be necessary and appropriate, and to otherwise fully participate in the proceedings.

Dated this 22nd day of April 2021.

Respectfully submitted,

Irion Sanger
