APRIL ENROLLMENTS: Income and household size data for customers who received energy assistance was provided by Oregon Housing & Community Services (OHCS) in April. This data was used to adjust the tier designation of auto-enrolled customers who were initially enrolled in Tier 3 and had not yet contacted PGE with income and household size information to update their discount tier. Cumulative Enrollment and Cumulative Active Enrollment numbers for April reflect these adjustments from Tier 3 to Tiers 1 & 2.

APRIL ARREAS: Average and total arrearage dollar values are based on IQBD enrollments as of April 30, 2023, but the data snapshot was queried on May 17. Impact to dollars amounts is expected to be negligible.

Increases to total arrears aligns with increases in enrollment and should not be compared month-to-month to assess any program impacts. Average arrears values reflect only those customers who have non-zero arrearages in a given window.

A single customer is counted only in the arrears window that contains their longest arrears. The arrearages for a single customer are broken out into the windows that reflect those individual dollars. For example, a customer with \$50 that is 40 days past due and \$20 that is 70 days past due would be counted as a customer who is 61-90 days past due but \$50 of their arrears amount is reflected in the 31-60 days average/total statistics and \$20 of their arrears amount is reflected in the 61-90 days average/total statistics.

Cumulative Enrollments reflect all customers who have enrolled in the program, regardless of whether or not those customers are currently enrolled.

Cumulative Active Enrollments reflect all customers currently enrolled in the program. Customers typically see their first discount on the bill cycle following their enrollment month.
