BUCKAROO SOLAR 2, LLC;

Complainants,

vs.

PACIFICORP, dba PACIFIC POWER, an
Oregon corporation,

Defendant,

Pursuant to ORS 756.500.

MEMORANDUM

A conference is scheduled in this proceeding for May 20, 2024, at 3:00 p.m. This memorandum serves as notice that the conference will be handled under OAR 860-082-0085(10). The purpose of the conference is to discuss whether the issues raised in the complaint can be decided based on the pleadings or if further proceedings are necessary. Parties are encouraged to confer prior to the conference regarding (1) the need for further process, and (2) a proposed procedural schedule if parties agree further process is needed.

If parties do not reach agreement, each party will be invited to provide a statement regarding its position on the issues and the need for further process, and then I will ask questions of each party and its witnesses. The parties should be prepared to discuss the factual allegations of the complaint and the answer, as well as to answer questions about the interconnection agreement and the interconnection process. Any witness answering questions at the hearing will be sworn in before providing their answers, similar to a hearing. The conference will be recorded and transcribed. Any statements made by witnesses may be made part of the record.

Dated this 14th day of May, 2024 at Salem, Oregon.

Katharine Mapes
Administrative Law Judge
