In the Matter of the Application and Supplemental Applications of)

NORTHWEST NATURAL GAS COMPANY)	
)	2009 Report of Proceeds
for Orders Authorizing the Issuance and Sale of an Additional 750,000 Shares of its Common Stock)	Received, Expenses Incurred and Disposition of Proceeds
)	

On October 1, 1976, Northwest Natural Gas Company (the Company) filed an Application with the Oregon Public Utility Commission (the Commission) under the provisions of ORS Chapter 757 for an Order authorizing the Company to issue and sell pursuant to the terms of its Dividend Reinvestment and Stock Purchase Plan (the Plan) not to exceed 300,000 shares of its authorized but unissued Common Stock. On November 4, 1976, the Commission issued its Order in the above-entitled matter granting the Company's Application and authorizing it to issue and sell to holders of record of its Common Stock not more than 300,000 shares of its Common Stock pursuant to the Plan.

On March 27, 1980, January 11, 1983, September 28, 1984, April 25, 1986, January 12, 1989, December 31, 1991, December 3, 1993, July 1, 1997, August 22, 2001 and June 9, 2005, the Company filed Supplemental Applications with the Commission under the provisions of ORS Chapter 757 for supplemental orders authorizing the Company to issue and sell, pursuant to the Plan, a total of 5,250,000 additional shares of its authorized but unissued Common Stock. On April 16, 1980, January 24, 1983, October 31, 1984, May 27, 1986, February 17, 1989, January 31, 1992, January 3, 1994, August 1, 1997, September 28, 2001 and July 6, 2005, respectively, the Commission issued its Supplemental Orders, Nos. 80-289, 83-036, 84-868, 86-518, 89-176, 92-181, 94-002, 97-286, 01-840 and 05-825 in the above-entitled matter, granting the Company's Supplemental Applications, and authorizing it to issue and sell an additional 5,250,000 shares of its Common Stock pursuant to the terms of the Plan. On September 6, 1996, the Company's Common Stock was split three-for-two, effected by means of a 50% stock dividend. Pursuant to the Company's request, the Commission, in its Order No. 96-165, dated June 23, 1996, authorized an adjustment to be made to reflect this stock split by increasing by 50% the number of shares remaining authorized to be issued under the Plan on the effective date of the stock split. An additional 87,263 shares were reserved for issuance under the Plan pursuant to this authorization. Therefore, at the date hereof the Company was authorized to issue and sell, pursuant to the Plan, an aggregate of 5,637,263 shares of its authorized but unissued common stock.

Since February 1977, the Company has made monthly offerings under the Plan to common shareholders who elected to participate. For years 1977 through 1983, shares of Common Stock purchased by participants in the Plan with reinvested dividends were priced at 95% of the average of the bid and asked prices of the Common Stock, as quoted by the National Association of Securities Dealers Automated Quotation system, over the five-day period ending on the Investment Date, as defined in the Plan. Beginning in 1984, shares purchased under the Plan with reinvested dividends and with optional cash payments were priced at 100% of the average of the closing sales prices over this five-day period. Effective January 1, 1994, shares purchased with reinvested dividends and with optional cash payments were priced at the average of the high and low trading prices, as reported on the Nasdaq Stock Market, on the Investment Date. Effective July 27, 2000, the Company's Common Stock was

listed and commenced trading on the New York Stock Exchange. For purposes of the Plan, the purchase price for original issue shares is the average of the high and low trading prices on the New York Stock Exchange on the Investment Date. Beginning on December 15, 2005, the Company began purchasing shares on the open market for purchase under the Plan. The price for shares purchased on the open market is the average price (including brokerage fees) paid by the Purchasing Representative to obtain them.

During 2009, the Company purchased on the open market an aggregate of 96,624 shares of its Common Stock pursuant to the Plan at various prices as more fully set forth herein. Of such shares, 78,755 were sold through reinvestment by participants of their dividends, while the remaining 17,869 shares were sold to participants who elected to make optional cash payments. Book entries for the 96,624 shares were issued at various times to American Stock Transfer & Trust Company, custodial agent. Such fully paid shares are held by the transfer agent in individual participants' Plan Accounts until such participants request that certificates be issued or that the shares be sold.

The Company had received aggregate cash proceeds in the amount of \$106,889,683.51 from sales of 4,768,361 shares of Common Stock it issued and sold in this Docket through November 30, 2005. In addition, a total of 387,813 shares have been purchased in the open market to meet requirements of the Plan. The Company did not receive proceeds from the 96,624 shares sold under the Plan in 2009 because the shares were purchased on the open market.

All shares authorized by previous Orders Nos. 76-780, 80-289, 83-036, 84-868, 86-518, 89-176, 92 181, 94-002, 97-286, and 01-840 were sold to Plan participants in previous years. All shares sold under the Plan in 2009 were sold under the authorization of Order No. 05-825. As of December 31, 2009 268,911 shares have been sold under the authorization of Order No. 05-825, with 481,089 authorized but unsold shares remaining.

Pursuant to the Commission's Order No. 05-825 in this Docket, the following detailed information is filed for the year 2009:
