

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1050

In the Matter of

PACIFICORP, dba PACIFIC POWER,

Requesting to Initiate an Investigation of
Multi-Jurisdictional Issues.

MEMORANDUM

This memorandum addresses the current status of this docket. This case is not currently a pending contested case under our rules.

This docket is used to manage PacifiCorp's inter-jurisdictional cost allocation protocol. There have been numerous multi-state protocols submitted in this docket that are contested cases that result in a final order.

On January 23, 2020, the Commission issued order No. 20-024 in this docket. This was a final order that resolved the most recently filed protocol and since that order, no prehearing conference has been established that would instigate a subsequent contested phase.¹

There is not currently a protocol proposed in this docket and no prehearing conference has been scheduled to consider such a filing. As stated above, this docket is not currently a contested case, but will transition to a contested case once a prehearing conference is scheduled.

Dated this 1st day of June, at Salem, Oregon.

Nolan Moser
Chief Administrative Law Judge

¹ The last prehearing conference held in this case occurred on December 9, 2019.
