**RE: Advice No. 17-28 Schedule 102 Regional Power Act Exchange Credit**

Portland General Electric Company (PGE) submits this filing pursuant to Oregon Revised Statutes (ORS) 757.205 and 757.210, and Oregon Administrative Rule (OAR) 860-022-0025, for filing proposed tariff sheet associated with Tariff P.U.C. No. 18, with a requested effective date of **January 1, 2018**:

Tenth Revision of Sheet No. 102-1

The purpose of this filing is to pass through to eligible customers the monetary benefits received from the Bonneville Power Administration (BPA) under the Residential Exchange Program consistent with the provisions of the Residential Exchange Program Settlement Implementation Agreement (REPSIA) Contract No. 11PB-12467. The Commission authorized PGE to execute the REPSIA in Order No. 11-114.

BPA's Final Record of Decision in BP-18, Power and Transmission Rate Proceeding dated July 26, 2017 specifies an annual exchange amount of \$66.9 million in monetary benefits for the approximately 805,000 eligible PGE customers. In addition to the \$66.9 million, PGE proposes to pass through an additional \$1.1 million owed to customers from the BPA balancing account during 2018. This \$1.1 million reflects the approximate projected balance in the BPA balancing account at the end of December 2017. The BPA balancing account is projected to be fully amortized by December 2018.

To satisfy the requirements of OAR 860-022-0025(2), PGE provides the following responses:

As a result of this proposed price change, the approximate 805,000 eligible customers will see a \$2.3 million decrease in their annual bills. This decrease represents an increase in credit to customers relative to the credit contained in current prices. A typical Schedule 7 Residential customer consuming 820 kWh monthly will see a bill decrease of approximately \$0.30 or 0.3%.

Work papers detailing the Schedule 102 rate development, and the balancing account detail are enclosed. Also enclosed are detailed bill comparisons.
