The purpose of this filing is to revise Schedules 26 and 125 consistent with the final net variable power costs (NVPC) of \$457.9 million determined in Docket No. UE 377. In addition, PGE resets the numerous System Usage, Distribution, and lighting fixture charges contained in PGE's base rate schedules consistent with the Special Conditions contained in Schedule 129. These charges are reset based on new long-term direct access participation during the September 2020 enrollment window. The change in unit NVPC inclusive of revenue sensitive costs and changes in Production Tax Credits is an increase of approximately \$66.2 million. The changes in System Usage, Distribution, and lighting fixture prices result in an increase of approximately \$ 0.9 million.

The Schedule 125 Annual Power Cost Update prices reflect the final NVPC submitted to the Commission November 16, 2020, in accordance with OPUC Order No. 19-329.

The Schedule 26 Nonresidential Demand Response Pilot Program energy prices are updated based on the 2020 forward market gas prices contained in the final UE 377 NVPC.

To satisfy the requirements of Oregon Administrative Rules (OAR) 860-022-0025(2) and 860-22-0030(1), PGE provides the following responses:

The changes in Schedules 125 and the various System Usage, Distribution and lighting fixture charge changes result in an increase of revenues for Cost-of-Service customers of approximately \$78.6 million or 4.3% of base revenues. Approximately 909,000 (2021 forecasted average) applicable customers will be impacted by these price changes. A typical Schedule 7 Residential customer consuming 800 kWh monthly will see a bill increase of \$4.72 or 4.5% inclusive of Public Purpose Charge effects.

The following work papers are included in this filing:

Attachment B System Usage Charge Calculations

Attachment C Table Demonstrating the Base Rate Impacts by Rate Schedule

QUALIFIED LOAD REDUCTION (Continued)

If the Customer fails to deliver a minimum of 70% of the Committed Load Reduction on average during an event for which the Customer is enrolled during events in that month, the Customer is not eligible for the Energy Reduction Payment for that Event and the Reservation Payment for that month. If other Load Reduction Events are called in the same month, and the Customer complies, the corresponding Energy Reduction Payments are paid for each event that the Customer delivers a minimum of 70% of the Committed Load Reduction on average over each event for which the Customer is enrolled during events in that month.

RESERVATION PAYMENTS

The Reservation Payment is the Customer's Qualified Load Reduction (kW) multiplied by the sum of each applicable Reservation Price (\$/kW) based on the Options selected by the Customer adjusted for losses based on the Customer's delivery voltage. For each event window (time period for an event) per season, only one price is applicable. The Reservation Payment is made to the Customer no later than 60 days after the month in which they participated.

ENERGY PAYMENTS

The Energy Payment is the Mid-Columbia Electricity Index (Mid-C) as reported by the Powerdex, adjusted for losses based on the Customer's delivery voltage. The Firm Energy Reduction Amount can be up to 120% of the commitment.

The monthly energy prices (per MWh) for the months in which the events are called* are:

| Jan 2021 | Feb 2021 | Jun 2021 | Jul 2021 | Aug 2021 | Sep 2021 | Nov 2021 | Dec 2021 |
|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
| \$41.55 | \$37.10 | \$17.80 | \$43.40 | \$61.60 | \$46.75 | \$37.35 | \$48.60 |

(C)
(C)

The Firm Energy Reduction Payment rates will be updated by December 1st for the next year beginning in January. Evaluation and settlement of the Firm Energy Reduction Payment will occur within 60 days of the Firm Load Reduction Event.

* PGE will not call events on Saturdays, Sundays, or Holidays. Holidays are New Year's Day (January 1), President's Day (third Monday of February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Thanksgiving Day (fourth Thursday in November), and Christmas Day (December 25). This selection of this option applies to all luminaires served under Schedules 91 and 95. This option gives eligible Customers an option between a daily Energy price and a Cost of Service option for the Energy charge. In addition to the daily Energy price, the Customer will pay a Basic Charge of \$75 per month to help offset the costs of billing this option. The daily Energy price for all kWh will be the Intercontinental Exchange Mid-Columbia Daily on- and off-peak Electricity Firm Price Index (ICE-Mid-C Firm Index) plus 0.306¢ per kWh for wheeling, plus losses. If prices are not reported for a particular day or days, the average of the immediately preceding and following reported days' on- and off-peak prices will be used to determine the price for the non-reported period.

Prices reported with no transaction volume or as “survey-based” will be considered reported. For the purposes of calculating the daily on- and off-peak usage, actual kWhs will be determined for each month, using Sunrise Sunset Tables with adjustments for typical photocell operation and 4,100 annual burning hours.

For Customers billed on the Daily price Option, an average of the daily rates will be used to bill installations and removals that occur during the month. Any additional analysis of billing options and price comparisons beyond the monthly bill will be billed at a rate of \$100 per manhour.

Losses will be included by multiplying the applicable daily Energy price by 1.0685.

The Daily Price Option is subject to Schedule 128, Short Term Transition Adjustment.
