**RE: Advice No. 19-20, Schedule 123 Decoupling Adjustment**

Portland General Electric Company (PGE) submits this filing pursuant to Oregon Revised Statutes (ORS) 757.205 and 757.210 and Oregon Administrative Rules (OARs) 860-022-0025(2) and 860-022-0030 for filing proposed tariff sheets associated with Tariff P.U.C. No. 18, with a requested effective date of **January 1, 2020**:

Fifteenth Revision of Sheet No. 123-3  
Fifteenth Revision of Sheet No. 123-4  
Fourteenth Revision of Sheet No. 123-5

The purpose of this filing is to implement in rates the 2018 results of the Sales Normalization Adjustment (SNA) portion of the Schedule 123 Decoupling Adjustment and the Nonresidential Lost Revenue Recovery Adjustment (LRRRA). The proposed 2020 amortization of the sum of the Schedule 7 and 32 SNA, and the LRRRA is a collection from applicable customers of approximately \$3.6 million. The distribution of this \$3.6 million is as follows: Schedule 7, a charge of approximately \$4.3 million, Schedule 32, a refund of approximately \$0.6 million, and other applicable schedules a refund of approximately \$0.1 million.

The LRRRA prices are based on the 2018 achieved energy efficiency attributable to Schedule 109 and the 2018 percentages applicable to commercial and industrial customers. Consistent with OPUC Order 13-459, the LRRRA prices are calculated to apply to only distribution services for those customers who have chosen long-term direct access. In addition, the proposed LRRRA includes the incremental energy savings associated with the conversion to LED streetlighting during 2018.

To satisfy the requirements of OAR 860-022-0025(2) and 860-022-0030, PGE provides the following responses:

PGE estimates that approximately 902,000 (2020 forecast) customers during 2020 will be impacted by this overall \$10.3 million or 0.6% decrease in revenues from current Schedule 123 prices. A typical Schedule 7 residential customer consuming 800 kWh monthly will see a \$1.17 decrease or -1.1% in their bill because of the proposed decrease to current Schedule 123 prices.

Work papers detailing the calculation of the proposed prices, and balances for the SNA and LRRRA accounts are enclosed including detailed bill comparisons.

Please direct any questions regarding this filing to Colin Wright at (503) 464-8011.

Sincerely,

Robert Macfarlane  
Manager, Pricing & Tariffs

Enclosure(s)

**SCHEDULE 123 (Continued)**

**NONRESIDENTIAL LOST REVENUE RECOVERY ADJUSTMENT (LRRRA) (Continued)**

For the purposes of this Schedule, the Lost Revenue Recovery Adjustment is the product of: (1) the reduction in kWh sales resulting from ETO-reported EEMs plus the energy savings associated with the conversion to LED streetlighting in Schedule 95, and (2) the weighted average of applicable retail base rates (the Lost Revenue Rate). Applicable base rates for Nonresidential Customers are defined as the schedule-weighted average of transmission, distribution, and fixed generation charges; including those contained in Schedule 122 and other applicable schedules. System usage or distribution charges will be adjusted to include only the recovery of Trojan Decommissioning expenses and the Customer Impact Offset. Franchise fee recovery is not included in the Lost Revenue Rate. The applicable Lost Revenue Rate is 6.278 cents per kWh.

**SNA and LRRRA BALANCING ACCOUNTS**

The Company will maintain a separate balancing account for the SNA applicable rate schedules and for the Nonresidential LRRRA applicable rate schedules. Each balancing account will record over- and under-collections resulting from differences as determined, respectively, by the SNA and LRRRA mechanisms. The accounts will accrue interest at the Commission-authorized Modified Blended Treasury Rate established for deferred accounts.

**DECOUPLING ADJUSTMENT**

The Adjustment Rates, applicable for service on and after the effective date of this schedule will be:

<u>Schedule</u>	<u>Adjustment Rate</u>	(R)	
7	0.058 ¢ per kWh		
15	0.021 ¢ per kWh		
32	(0.037) ¢ per kWh		
38	0.021 ¢ per kWh		
47	0.021 ¢ per kWh		
49	0.021 ¢ per kWh		
75			
Secondary	0.021 ¢ per kWh		
Primary	0.021 ¢ per kWh		
Subtransmission	0.021 ¢ per kWh		
83	0.021 ¢ per kWh		(R)

**SCHEDULE 123 (Continued)**

DECOUPLING ADJUSTMENT (Continued)

<u>Schedule</u>	<u>Adjustment Rate</u>

592	(0.002) ¢ per kWh	
595	(0.002) ¢ per kWh	(R)

**TIME AND MANNER OF FILING**

Commencing in 2014, the Company will submit to the Commission the following information by November 1 of each year:

1. The proposed price changes to this Schedule to be effective on January 1st of the subsequent year based on a) the amounts in the SNA Balancing Accounts and b) the amount in the LRRR Balancing Account.
2. Revisions to this Schedule which reflect the new proposed prices and supporting work papers detailing the calculation of the new proposed prices and the SNA weather-normalizing adjustments.
