- G) A statement, as of the date of the balance sheet submitted with the application, showing for each class and series of long-term debt or notes: Long term debt for Pelican Bay Heights PUD: \$56,244 at -0-% interest and no maturity date. - H) A full description of the securities for which applicant proposes to assume obligation or liability as guarantor, endorses, surety, or otherwise:

The PBHPUD will not assume obligation or liability for any securities. The district is seeking funding through the Safe Drinking Water Revolving Loan Fund. The funds will be utilized to make necessary upgrades in order to consolidate the Pelican Bay Heights PUD and Harbor Water PUD. The project includes upgrades to the connections, as well as two 10,000 gallon tanks which will bring the Pelican Bay system up to the standards required by Harbor Water.
- L) The reasons, in detail, why it is necessary for applicant to guarantee such securities: It is necessary for this loan to be obtained because the operator of system would like to retire. The system is small, and will function better with the addition of the tanks. Additionally, consolidation with Harbor will help to ensure services to residents in the Pelican Bay Heights area are continued into the future. Consolidation with Harbor will provide increased water pressure with the addition of the gravity fed tanks. Harbor Water will require that this improvement be made in order to ensure that the system meets their standards.
- M) The facts relied upon by the applicant to show the assumption is: Pelican Bay Heights PUD has worked with Rob Henry of HBH Consulting Engineers to develop the feasibility planning for this project, as well as the project budget.
