**Re: Docket AR 555—PacifiCorp's Comments in Support of Proposed Changes to OAR  
860-038-0300(2)**

PacifiCorp d/b/a Pacific Power (PacifiCorp or Company) appreciates the opportunity to provide comments regarding proposed changes to the portfolio options and labeling rules under OAR 860-038-0300(2).

PacifiCorp has been an active participant in this proceeding since 2011, and would like to commend staff for its leadership in conducting a thorough and robust review of the issues in this rulemaking. The Company is especially appreciative of the open and collaborative process that allowed all involved stakeholders numerous opportunities to be heard.

In Order No. 14-067, the Public Utility Commission of Oregon directed parties to address the frequency of when the price, power source, and environmental impact information is provided to customers. PacifiCorp supports the proposed rule change to require annual notifications, and also believes that providing cost information that is tailored to average residential usage data will provide valuable information to customers.

Please contact Ariel Son, Regulatory Projects Manager, at (503) 813-5410 if you have any questions.

Sincerely,

*R. Bryce Dalley*
