The Oregon Citizen's Utility Board ("CUB") submits this response to the City of Gresham's ("Gresham") Motion for Clarification in this matter. CUB does not have a strong position on Gresham's clarification request. To the extent that Gresham seeks clarity on the calculated amount PGE may collect from its Gresham customers¹, it may be necessary for the Commission to clarify its order. However, CUB otherwise believes the Commission had made a determination on the legal threshold issue and that Gresham's clarification requests (1) will not change that determination; and (2) may be more appropriately raised in a motion for reconsideration.

Dated this 28th day of December, 2017.

Respectfully submitted,

/s/ Elizabeth Jones
Elizabeth Jones, OSB #170349
