

BEFORE THE PUBLIC UTILITY COMMISSION

OF OREGON

AR 616

In the Matter of Rulemaking Related to
Renewable Portfolio Standard Planning and
Reports.

**STAFF WORKSHOP AGENDA AND
ISSUES LIST**

The Public Utility Commission of Oregon will hold a Staff workshop in this docket as follows:

DATE: June 19, 2020

TIME: 1:00 pm to 3:00 pm

LOCATION: Held via Webinar

For questions, please contact Natascha Smith, 503-559-7752, natascha.smith@state.or.us

Staff is holding this stakeholder webinar to continue discussion of the issues, inform the development of Staff's proposal, and examine the definition of associated energy storage.

Agenda

1. Introductions (1:00-1:10)
2. Group Discussion (1:10 – 1:25)
3. Overview of Staff's Proposal (1:25-1:45)
4. Associated Energy Storage (1:45-2:15)
5. Next steps (2:45 – 3:00)

Issues List for Discussion

1. What value do the RPIP and Compliance Report bring that is not contained in an IRP?
2. What is the role of the RPS planning and reporting dockets in assessing REC bank management?
3. What additional scenario or sensitivity requirements should be included in the RPS Planning Report?
 - a. If the RPS obligation is increased to 100%
 - b. If cap-and-trade is adopted
 - c. If more renewables are needed to serve load in cities/communities with renewable energy commitments
4. What is the purpose of including 'associated energy storage' in RPS cost recovery?
