

Agenda
Public Utility Commission Workshop – UM 1673
PUC Report to the Legislature on Solar Incentive Programs
January 16th, 2014
10:00 a.m. to 12:00 p.m.
Oregon Public Utility Commission
3930 Fairview Industrial Drive, Salem OR 97302

The Public Utility Commission will hold a workshop to discuss the Legislative Report created by 2013 House Bill 2893 on Solar Incentive Programs. The agenda for the workshop will be:

I. Introductions

II. Comments by Stakeholders

Each party will have approximately five minutes to address the Commission. The time allotment may be adjusted based on the number of persons wishing to comment.

Please remember that the Commissioners have reviewed all of the written comments that were submitted on December 19, 2013. The Commission therefore suggests that your oral comments at the workshop address the highest priority points that you want to make, in order to leave time for other stakeholders.

III. Question and Answer

After parties have had the chance to make their oral comments, we will use the remaining time for the Commissioners to ask questions of the parties. The workshop is scheduled to end at 12:00 noon.

Please feel free to contact Adam Bless at 503-378-6638 with any questions about this workshop.
