

DOCKET NO. UM 1688

**Cover Sheet for Submission of
2014 Annual ETC Certification Reports**

Name of Eligible Telecommunications Carrier: Pine Telephone System, Inc.

Filing date: June 24, 2014

Is this: Original submission? X
OR
Revised submission? _____

Person to contact for questions:

Name Teena Thomas

Phone number 541-742-2201

E-mail address teenase@pinetel.com

Documents included in this filing (please check applicable items):

_____ CAF/ICC Support (47 CFR § 54.304)

X Rate Floor Data (47 CFR § 54.313(h))

X Form 481 (High-cost per 47 CFR § 54.313, Low-income per 54.422)¹

_____ Form 690 (Mobility Fund per 47 CFR § 54.1009)

X Affidavit for High-Cost Support

Filing deadlines: The deadlines for filing items required by 47 CFR § 54 are the same as the deadlines for filing with the FCC. The notarized affidavit for high-cost support must be filed no later than the due date for the FCC Form 481. Based on current information, it appears that all items other than CAF/ICC support data are due by July 1, 2014. The CAF/ICC support data are due the same day as the ETC's interstate access tariff filing.

If revisions to an original submission are filed with the FCC or USAC, a copy of the revisions must be filed with the Oregon Commission no later than five business days following submission to the FCC or USAC.

¹ Lifeline-only ETCs must provide all information specified in 47 CFR § 54.422(b) even if the ETC does not submit this information to the FCC.

AFFIDAVIT CERTIFYING USE OF UNIVERSAL SERVICE FUNDS

I, Ron L. Milford [name of company officer], being of lawful age and duly sworn, on my oath, state that I am the President [title] of Pine Telephone System, Inc. [Company name] and that I am authorized to execute this Affidavit on behalf of the Company, and the facts set forth in this Affidavit are true to the best of my knowledge, information and belief.

Pursuant to the requirements of the Federal Communications Commission, 47 C.F.R. § 54.314, Pine Telephone System, Inc. [Company name] hereby certifies to the Public Utility Commission of Oregon that it is eligible to receive federal high-cost support for the program years cited.

I attest that all federal high-cost support provided to Pine Telephone System, Inc. [Company name] in Oregon was used in the preceding calendar year (2013) and will be used in the coming calendar year (2015) only for the provision, maintenance and upgrading of facilities and services for which the support is intended.

DATED this 24th day of June, 2014.

By: Ron L. Milford (Officer's Name)

Its: President (Officer's Title)

SUBSCRIBED AND SWORN to before me this 24 day of June, 2014.

Hector Villegas

Notary public in and for the State of Texas

My Commission Expires: 12-04-2016

<110> Has your company received its ETC certification from the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>
If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

532392OR112.pdf

Name of Attached Document

Please check these boxes below to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113>** Maps detailing progress towards meeting plan targets
- <114>** Report how much universal service (USF) support was received
- <115>** How (USF) was used to improve service quality
- <116>** How (USF) was used to improve service coverage
- <117>** How (USF) was used to improve service capacity
- <118>** Provide an explanation of network improvement targets not met in the prior calendar year.

Pine Telephone Company

Five Year Service Quality Improvement Plan

This Five Year Improvement Plan (the "Plan") is a section of the Company's 2014 Annual Report. It is filed in Compliance with 47 CFR § 54.313(a) (1) as adopted in the FCC's USF/ICC Transformation Order (11-161). This document also incorporates further clarifications identified in subsequent Reconsideration Orders, as applicable, in effect prior to the filing of the Annual Report.

Pine Telephone has developed its Improvement Plan thoughtfully, concentrating on the delivery and continuation of a robust network which provides, at a minimum, the federally required voice and broadband connectivity as stated in FCC rules. In certain situations (and as noted herein), the plan may also incorporate specific state requirements.

Pine Telephone is a recipient of state support from the Oregon Universal Service Fund ("OUSF"). The Fund is currently under review in a formal state commission staff proceeding (docket UM 1481), to assure the Fund contribution and support mechanisms, and those qualifying for support, are in concert with current regulatory and market conditions. The outcome of the OUSF docket, the timing of a decision, and its impact upon Pine Telephone are unknown at the time of this Plan.

Pine Telephone advises that the Plan has been carefully crafted, matching measured network deployment, improvement and quality service levels with known financial implications of the Transformation Order upon the company's support and consequent cash flows. The uncertainty of such cash flows being received in the outer years as a result of current and potential regulatory action on rural rate-of-return carriers has resulted in the Company taking a balanced yet realistic approach.

The environment in which the Company operates remains dynamic, not static. As a result, Pine Telephone reserves the opportunity to modify the Plan in response to further regulatory decisions as they are adopted, and their implication upon the Company's financial viability in providing the required services and service level quality becomes known.

Pine Telephone will re-evaluate this Plan on an annual basis. Action, however, may also be taken abruptly changing the Plan for both current and outer years in the event of evolving regulatory conditions and/or changes in technology (vendor)-driven support. All adjustments to the Plan will be reflected and explained in subsequent annual reports.

SUPPORT FUNDING FOR 2013

Pine Telephone, as an Eligible Telecommunications Carrier (ETC) provides Universal Service Fund supported services to approximately 900 customers in 3 exchanges covering approximately 911 square miles.

Consistent with FCC requirements, this Plan addresses only Pine Telephone's regulated Eligible Telecommunications Carrier operations. A detailed description of Pine Telephone's plans for the provision of the supported services the five-year period starting with January 2015 is provided herein.

Per the Universal Service Administrative Company (USAC), during the calendar year 2013, Pine Telephone received a total of \$5,081,714.00 in USF support funds. The breakdown of that funding for the year was:

- \$2,193,307.00 High Cost Loop Support
- \$865,018.00 Local Switching Support
- \$653,418.00 Connect America Fund-Intercarrier Compensation Support
- \$1,295,906.00 Interstate Common Line Support
- \$ 74,065.00 Safety Net Additive

All funds were used in 2013 to both 1) maintain, upgrade, and improve the Company's network and, 2) cover its operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband throughout its service area.

IMPROVEMENTS PLANS BY YEAR (2015-2019 inclusive)

Summary descriptions of network improvements planned for the next five years in accordance with Part 54.202(a) (1)(ii) and Part 54.313(a)(1) by year and by exchange are presented below. Where available, the area and subscribers impacted by improvements are identified in the accompanying worksheet. Costs are broken out by voice and broadband service.

- Network improvement expenditures identify the cost to provide those services supported by the universal funding mechanisms. When a project involves expenditures for both regulated and non-regulated services, the non-regulated investment costs have been removed. The Company estimates non-regulated costs using the appropriate allocation rules. Details of those costs are retained by the Company and available for inspection.
- Costs are reported only for those service areas in which the Company is authorized to receive USF funding.

Due to the current uncertainty of the amounts of support funds the company may receive in future years, Pine Telephone advises the FCC that the deployment of specific network improvement projects may be modified, and the meeting of projected service goals muted, accommodate if the actual amount of support received constrains Pine Telephone's ability to do so.

OVERVIEW

Pine Telephone is an independent local exchange carrier providing telecommunications services for Halfway, Granite, and Three Rivers (West of Culver, Oregon) exchange areas in Oregon with some properties also located in Idaho. With three exchanges, Pine Telephone's service areas have a current population of approximately 1,320, over a geographic area of approximately 911 square miles. In general, the service territory is a mixture of high desert, mountains, and rivers. Its main office in Halfway is located 1 ½ hours to the East from Baker City, Oregon. Generally the Halfway Exchange is high desert with mountains, the Granite Exchange is high mountains, and the Three Rivers Exchange is high desert bounded by rivers and a large lake.

There are a limited number of homes passed by within the three exchange areas. According to the U.S. Census the median household income for the Halfway exchange is \$34,968, per capita income.

Pine Telephone's network consists of approximately 291.35 miles of fiber serving 578 subscribers and 336.89 miles of copper plant serving the remaining 258 subscribers. At the end of 2013 there were two routes in and out for toll and a fiber ring transporting internet-bound traffic while also serving three impoundment and hydroelectric dams on the Snake River.

Pine Telephone estimates that as of the end of 2013 approximately 98% of the homes passed have broadband download speeds of greater than 6/1 using fiber transport and a mix of Adtran VDSL technologies.

In 2013, Pine Telephone provides high speed broadband to the following "anchor" institutions:

- Halfway Clinic
- Pine Eagle Charter School (K-12)
- Forest Service
- Halfway Library
- Richland Library
- City of Halfway
- Halfway Fire Dept.
- Halfway Chamber of Commerce
-

In addition Pine Telephone provides a Video System for Halfway Charter School for live online classes. College and language courses are provided from other school districts.

SUMMARY DISCUSSION OF PLANS BY YEAR

2015/2016/2017

Upgrading FTTH ONT:

Pine Telephone intends to upgrade the TelStrat CPE FTTH ONT to an Adtran Platform. The Adtran Platform is in place and is extremely reliable. TelStrat was Pine Telephone's original platform with many inherent problems, including limited reliable spares for replacement purposes. This will be a three year project with the intent of replacing approximately 175 CPE ONT's. Also the TelStrat housing is reusable with a small adjustment, meaning that there is no extra cost. This project will be performed by employees and managed internally.

Approximate costs are calculated with labor at \$350 per unit @ 58 customers per year = \$20,417 per year, and \$61,251 over the three year period.

D.C. Rectifier and Battery Upgrades:

For 2015 Pine Telephone will upgrade the power and batteries at the Granite Exchange. The batteries and rectifier are 15 years old with very limited spare equipment available to use for replacement of broken and nonfunctional parts. This particular area is approximately 5000ft in altitude and located in an extremely remote location. The Granite Exchange office also powers numerous remotes via express

power. When winter storms roll through that service area, with its mountains and heavy snowfall, power problems are continuous. Also this area is a Forest Service staging area for Fire Camps. As an example the 2014 Crane Flat Fire and the remote that feeds that area is served by express power only. Also, the Forest Service needed broadband service at that location to assist them in fighting the fire. The exchange serves approximately 125 customers. This project will be contracted out with an employee assisting to ensure that it is completed on time.

Approximate costs with labor are \$31,141

2015/2016

Adtran Upgrade:

For 2015 Pine Telephone will upgrade the AFC platform which is 20 years old to the newer Adtran VDSL platform. Currently the AFC platform in the Granite Exchange is serving 125 customers and is broadband capable with some changes which Pine Telephone was able to make in order to increase the AFC to broadband speeds of 4Mb/1Mb. The AFC equipment is hard to maintain with very limited good spares available. Upgrading to Adtran will enable Pine to use the spares that are already available combined with the same equipment Pine currently has in other locations to double broadband speeds to that other location. Also Pine Telephone anticipates future cost savings on employee training as Adtran VDSL platforms are already in use in Pine Telephone's other exchanges. The project would be performed by employees and managed internally.

Costs approximately with labor are:

Granite 2015 \$46,783.10 - Adtran Upgrade

Granite 2015 \$18,590.00 - Sonet Terminal

Upgrade in 2016 to Ethernet Capable Sonet, Greenhorn, Stices Gulch, Black Mountain \$38,265.50

This upgrade will provide broadband capability to the approximate 2% of customers still utilizing the older systems.

The total estimated Adtran Upgrade costs are \$61,638.60

2015/2016/2017/2018/2019

General Expenditures:

For years 2015 through 2019 Pine Telephone expects to spend \$11,000.00 per year in miscellaneous additions for a total of \$55,000.00.

2016

Backhaul Upgrade for Radio:

For 2016 Pine Telephone will upgrade backhaul radio to our Oregon Public Broadcasting ("OPB") site in the Halfway Exchange. The radio is currently unlicensed 5GHZ and Pine Telephone would like to upgrade to 10GHZ licensed radio. Pine Telephone currently has no fiber to that area and instead relies on radio for back haul.

The tower serves OPB and Pine Telephone would like to expand this service to be able to offer Ethernet connections to Verizon Cellular and the State Highway Department. Additionally, ATT Cellular plans on building a site in this area. There will be cost savings in that Pine Telephone will not have to build fiber to serve this area. The project will be performed by employees and managed internally.

Approximate costs approximate with labor are \$13,186.50

Bucket Truck:

For 2016 Pine Telephone will purchase a bucket truck. Pine currently has 1 older vehicle (2001/118,000 miles). The bucket truck will be both a service truck and used to work on towers Pine Telephone uses.

Approximate cost is \$55,000.00

Because Pine Telephone has been using much more wireless technology with towers to serve its customers, for the cost savings that Pine is realizing from not laying buried fiber cable, Pine has much more need for a bucket truck than in the past. As an example, Pine Telephone installed a tower providing wireless capability to upgrade a BTRS radio to the Dump Transfer Station. The alternative would have been to lay buried fiber as well as copper cable for approximately five miles as there is also no power available on site. Pine Telephone upgraded to wireless local loop and used the current solar system at the Premise for power. The customer has 6/1Meg broadband and POTS.

2017

Green Horn Fiber Upgrade:

For 2017 Pine Telephone will expand its network by laying additional buried fiber cable a distance of approximately 5 miles, from the Greenhorn area in the Granite Exchange to a meet point with Oregon Telephone Corporation. The necessary permits have already been obtained. This upgrade will give the 125 customers in the Green Horn area additional bandwidth via Ethernet from Oregon Telephone Corporation and eventually allow Pine Telephone to remove the existing 17 year old switch. Currently all that is available is TDM and it is extremely expensive. This will cut costs and upgrade Pine Telephone's ability to serve the area. The project would be contracted out and an employee would be assigned to ensure quality and completion of the project.

Approximate costs with labor are \$262,430.00

2018

Generator Upgrade:

For 2018 Pine Telephone plans to replace two generators in our service area, an old generator in Eagle Bar which serves the Hells Canyon Dam and another that serves Granite. Both areas are extremely remote and need strong and reliable Generator Backup. Because the current generators are very old, they are due for replacement. The project would be contracted out and an employee assigned to ensure quality and completion of the project.

Approximate costs with labor are:

\$24,585.00 Granite
\$24,585.00 Eagle Bar (Hells Canyon)
\$49,179.00 TOTAL

2019

10 Gig Backhaul Upgrade:

For 2019 Pine Telephone plans to upgrade equipment for regulated internet backhaul to 10 Gigabit, which will require changing out Pine Telephone's Sonet Terminal. This is necessary due to the increasing needs for more broadband capability of the schools, libraries, and local health clinic. This upgrade would not require continuing expenditures but be a one- time capital expenditure. This project would be contracted out and an employee assigned to ensure quality and completion of the project.

Approximate costs with labor are \$58,035.50

Switch Upgrade:

In 2019 Pine Telephone plans to upgrade the Halfway Exchange Switch to a Meta Softswitch. The current Taqua switch will be 20 years old at that time. To transition to VOIP technology a modernized switch will be needed. Also the Metaswitch will switch the Granite Exchange which currently has a 20 year old switch. This project would be contracted out and an employee assigned to ensure quality and completion of the project

Approximate costs are with labor are \$387,500.00

Conclusion

5 Year Estimated Costs Summary

2015	\$127,931.10
2016	\$137,869.00
2017	\$293,847.00
2018	\$ 60,170.00
2019	\$456,535.50
Total Estimate	\$1,076,352.60

54.313(a)(5) Satisfaction of Consumer Protection and Service Quality Standards

Consumer Protection

Voice and Broadband

Pine Telephone System, Inc. complies with the requirement of 47 CFR Part 64 Subpart U, Customer Proprietary Network Information and the Federal Trade Commission Red Flag rules to prevent identity theft. A manual for each of those programs is in place and is part of the employees' handbook. Employee training is conducted annually and new hires are instructed on the programs as required by their job functions.

Service Quality Standards

Voice

Pine Telephone System, Inc. complies with the service standards of the State of Oregon as promulgated in the Oregon Administrative Rules 860-034-0390, Retail Telecommunications Service Standards for Small Telecommunications Utilities.

Broadband

Pine Telephone System, Inc. follows the service standards noted in NECA Tariff #5 and is committed to provide the highest quality service to its broadband customers.

Pine Telephone System, Inc.

54.313(a)(6) Ability to Remain Functional in Emergency Situations

Back-up Power

Pine Telephone System, Inc. has the following back-up power capabilities:

Switches – stand alone and/or host

Switch A-Halfway CO

80KW, Diesel Generac Generator with 250 gallon tank capacity.

Expected run time on full tank: 96 hours. Battery Capacity, String A, 1 rack, GNB ABSOLYTE, 1200 Ampere Hours, 8 hrs. to 1.75 VPC, String B, 1 rack, GNB ABSOLYTE, 1200 Ampere Hours, 8 hrs. to 1.75 VPC, String C, 1 rack, GNB ABSOLYTE, 1200 Ampere Hours, 8 hrs. to 1.75 VPC

Switch B-Granite CO

Kohler 8.5 RMY, 8.5 KW Generator with 500 gallon propane tank capacity.

Expected run time on full tank: 250 hours. Battery Capacity, String A, 1 rack, GNB ABSOLYTE, 1200 Ampere Hours, 8 hrs. to 1.75 VPC

Switch C-Three Rivers CO

80KW, 80KVA, 120/240 Volts, 333.3 Amps, Phase 1 PHA, 60 Hertz, Propane, Generac Generator, 10 cylinder with a 500 gallon tank capacity.

Expected run time on full tank: 200 hours, 24 EXIDE batteries, 2000 Ah At 8 hrs. to 1.75 VPC

Subscriber carrier (DLC, AFC, OPM, etc.)

Remote AFC Cabinets associated with Switch A

RST 1, West Dry Creek, 2 Battery strings, SBS 40, 12V-37 Ah.

Expected run time: 24 hrs.

RST 2, East Dry Creek, 2 Battery strings, SBS 40, 12V-37 Ah.

Expected run time: 24 hrs.

RST 3, Gulick, 2 Battery strings, SBS 40, 12V-37 Ah.

Expected run time: 24 hrs.

RST 4, East Pine, 2 Battery strings, SBS 40, 12V-37 Ah.

Expected run time: 24 hrs.

RST 5, Carson, 2 Battery strings, SBS 40, 12V-37 Ah.

Expected run time: 24 hrs.

Halfway Hill, 1 Battery strings, SBS 40, 12V-37 Ah.

Expected run time: 24 hrs.

Jimtown Hut

Telstrat & Adtran

45KW, 4.2L, Propane, TWE Enterprises Generator with 500 gallon tank.

Expected run time on full tank; 250 hours. Battery Capacity, String A, 1 rack, TYCO, 2000 AH @ 8 hour rate to 1.75 VPC.

Oxbow Hut

AFC, Telstrat, Adtran & Fujitsu
18KW, 2.3L, Propane, 18RY 62 Kohler Generator with 500 gallon tank.
Expected run time on full tank; 250 hours. Battery Capacity, String A,
1 rack, GNB ABSOLYTE, 1200 Ampere Hours, 8 hrs. to 1.75 VPC.

Brownlee Hut

AFC, Adtran & Fujitsu
Battery Capacity, String A, 1 rack, GNB ABSOLYTE, 1200 Ampere Hours
Rated 8 hrs. to 1.75 VPC.

Eagle Bar Hut

AFC, Adtran
5000W, TWE50 GAK generator with a 125 gallon propane tank.
Expected run time on full tank: 100 hours.
Battery Capacity, String A, LS12-100, 100 Ah to 10.5 Volts.
Rated 8 hrs. to 1.75 VPC.

AFC remote Hells Canyon Park

2 Battery Strings, SBS 15, 12V 12.8 Ah

Remote AFC Cabinets associated with Switch B

RST 1, Deems Loop, 2 Battery strings, GNB. Expected run time: 24 hours

RST 2, Black Mountain, line powered from RST 3.

RST 3, Denny Creek, 2 Battery strings, GNB. Expected run time: 24 hours

RST 6, Olive Creek, line powered from the Granite CO.

RST 7, Lower Stices Gulch, 2 Battery strings, SBS 40, 12V-37 Ah
Expected run time: 24 hours.

RST 8, Upper Stices Gulch, 2 Battery strings, SBS 40, 12V-37 Ah
Expected run time: 24 hours.

Greenhorn Hut, RST 9

8000W, TWE80 GAK generator with two 250 gallon propane tanks.
Expected run time on full tank: 200 hours. Battery Capacity, String A,
1 rack, E31 SLD G, 97.6 Ah, String B, E31 SLD G, 97.6 Ah,
Solar Assist, 2 PV Modules, IF 150

North Hut – Three Rivers

60KW, 60 KVA, 120/240 Volt, Phase 1 PHA, Generac Generator, 500 gallon Propane tank. Expected run time on full tank:48 hrs. Battery capacity, 2180Ah@600V, 39 panels equal 9.36kW+/-.

Ability to reroute traffic around damaged facilities:

Pine Telephone System, Inc. has the following per Exchange:

Halfway Exchange

The Halfway Exchange has 72 DS1s (3 T1s) connected to Syringa for the purpose of inter lata voice calls with CIC codes. Halfway also has a 110Mbps circuit to Syringa for Internet access services. A SONET ring protects the voice and Internet circuits between Halfway and the point of connection to Cambridge Telephone/Syringa at Brownlee. Syringa, over the Cambridge Telephone facilities, transports to Cambridge at which point the circuits are once more inserted into a SONET ring that carries the circuits to the Syringa tandem in Boise for connection to the world.

The Halfway Exchange also has 3 T1s connected to the Pendleton Tandem via CenturyLink for Intralata voice calls. At this point in time there is no protection for those circuits; however, Pine Telephone has been planning with Syringa and other local telephone companies about the possibility of creating a SONET ring in Eastern Oregon that would have provide full protection. The required investment in plant is not now available, so has delayed this project.

Granite Exchange

The Granite Exchange has 2 T1s connected to the Pendleton Tandem via CenturyLink that provide inter and intra lata voice circuits for its customers. Granite also has 5 T1s directly connected to the Halfway central office that provides for Internet access bandwidth and special access. There is no protection at this point in time for those circuits; however, should the Eastern Oregon SONET ring be deployed in the future, then Granite will be in the ring.

Three Rivers Exchange

The Three Rivers Exchange has 3 T1s dedicated to inter and intra lata voice calls with CIC codes. These circuits terminate on the Syringa Tandem in Boise. The exchange also has 2 T1s dedicated to intra lata voice calls without CIC codes that terminate on the CenturyLink tandem in Redmond. Internet access circuits are shared with 10Mbps to Syringa and 40Mbps to Zayo Bandwidth.

At some point in the future a partial SONET ring is planned within the Three Rivers service area that will protect a cable cut.

Capability to manage traffic spikes resulting from emergency situations

The Halfway Exchange has 735 customers, switching capacity of 1000 simultaneous calls, and transport capacity for 120 simultaneous calls.

The Granite Exchange has 93 customers, switching capacity of 1000 simultaneous calls, and transport capacity for 48 simultaneous calls.

The Three Rivers Exchange has 56 customers, switching capacity of 1000 simultaneous calls, and transport capacity for 120 simultaneous calls.

Pine Telephone System, Inc.

LOCAL SERVICES*

LOCAL ACCESS LINE RATES

RATES

Trunks and one-party apply within the base rate area and supplementary base rate areas. Trunks and one-party can be provided in suburban areas for an additional charge (mileage). Following are the monthly rates for local access lines including certain CLASS features listed on sheet 302 and 302.1 and marked by an asterisk(*):

BUSINESS SERVICE

Touchtone

<u>Exchange Names</u>	<u>PBX Trunks</u>	<u>One-Party</u>	<u>Semi-Public</u>
Halfway/Oxbow	N/A	\$19.00	\$19.00
Granite	N/A	\$19.00	\$19.00
Three Rivers	N/A	\$19.00	\$19.00

RESIDENCE SERVICE

Touchtone

<u>Exchange Names</u>	<u>PBX Trunks</u>	<u>One-Party</u>
Halfway/Oxbow	N/A	\$14.00
Granite	N/A	\$14.00
Three Rivers	N/A	\$14.00

The above rates do not include the Service Assistance Program Surcharge.

* Subject to Oregon Telephone Assistance Program (OTAP) Credit

Description

a. Pursuant to Chapter 290, Oregon Laws 1987, and Oregon Administrative Rule (OAR) Chapter 860, Division 33, the Oregon Telephone Assistance Program (OTAP) is the state counterpart to the federal Lifeline program and is governed by Federal Communication Commission 47 Code of Federal Regulations Subpart E, 54. This state and federal government assistance program provides qualifying low-income consumers with reduced monthly charges for any local residential service plan that includes voice telephony service. Eligible voice telephony services must provide voice grade access to the public switched network or its functional equivalent, access to emergency services and toll limitation services.

b. Customers must meet the eligibility requirements for OTAP/Lifeline defined in OAR 860-033-0030.

Advice No. 1

Issued May 15, 2013 Effective July 1, 2013

Pine Telephone System, Inc.

LOCAL SERVICES

LOCAL ACCESS LINE RATES - Cont'd

OTAP (cont.)Terms and Conditions

Basic federal Lifeline support amount:	\$9.25
<u>OTAP support amount:</u>	<u>\$3.50</u>
TOTAL support amount:	\$12.75

- a. The basic federal Lifeline support amount is applied to the End User Common Line charges or equivalent. The remaining basic federal and OTAP support amount is applied to the qualifying low-income customer's intrastate rate.
- b. Billing will reflect that the OTAP/Lifeline credit became effective on the date specified by the Public Utility Commission of Oregon for each approved customer.
- c. Partial payments from OTAP/Lifeline customers are first applied to the allocated price of the voice telephony service component and then to toll charges or the cost of other services.
- d. OTAP/Lifeline customers may voluntarily elect toll limitation service at no charge. OTAP/Lifeline customers who subscribe to toll limitation service will not be required to pay a service deposit in order to initiate OTAP/Lifeline service.
- e. OTAP/Lifeline customers may not be charged the federal universal service fund fee or the monthly number-portability charge as part of their local residential service plan that includes voice telephony service.
- f. The Residential Service Protection Fund surcharge must be charged to OTAP/Lifeline customers.

CONDITIONS

Local service is provided through facilities owned and maintained according to the standards of the Company. The territory served is shown on maps filed with the Commission by the Company. This territory is referred to as an exchange.

The application of business or residence rates is determined by the actual or obvious use made of the service by the customer. Where only one access line is provided at a location which is both business and residence, the business rate will apply. Flat rate service will not be installed on premises of a public or semi-public character in a location where the telephone would be accessible for use by the patrons of the customer or by the public in general.

Local service rates include the line which provides access to the central office switching equipment. Customer premises equipment (CPE) is excluded, except that one telephone is included with semi-public service. Customer premises inside wire is excluded.

Advice No. 1

Oregon Lifeline (Oregon Telephone Assistance Program)

The Oregon Public Utility Commission (PUC) manages the Oregon Lifeline program. If you qualify, this federal and state government assistance program reduces your monthly residential/landline or wireless phone bill by \$12.75.

[List of residential/landline and wireless companies that provide the Oregon Lifeline benefit](#)

How to Apply for Lifeline:

Using Online Application:

Submit your application online if you or a member of your household participates in one of the following programs:

- Supplemental Nutrition Assistance Program; Food Stamps (SNAP)
- Temporary Assistance for Needy Families (TANF)
- Supplemental Security Income (SSI)
- State Medical Programs (at or below 135% of federal poverty guidelines)
- Medicaid

Using Printed Application:

Complete and send a printed application to our office with the current documentation if you or a member of your household participates in one of the following programs or meets the income requirements:

- National School Lunch Program; Free Lunch Program Only (NSLP)
- Low-Income Home Energy Assistance Program (LIHEAP)
- Federal Public Housing Assistance (Section 8)
- Total household income is at or below 135% of federal poverty guidelines

PINE TELEPHONE SYSTEM, INC.

P. O. BOX 706 104 CENTER STREET
HALFWAY, OREGON 97834
(541) 742-2201 FAX (541) 742-4321

54.313 Lifeline customers MOU and additional toll charges

Lifeline subscribers receive the same residential service as a regular subscriber, but at a reduced monthly recurring rate. Thus, lifeline subscribers have an unlimited number of local calling minutes. As for toll, lifeline subscribers, similar to every Pine Telephone System, Inc. subscriber, are free to choose their own toll usage plans through IXCs that serve Pine Telephone System, Inc.

<p style="text-align: center;">NOTES TO THE OPERATING REPORT FOR TELECOMMUNICATIONS BORROWERS</p>	
<p>NOTE: This submission was prepared from Pine Telephone System, Inc.'s December 31, 2013 audited financial statements.</p> <p>On July 1, 2012, the company formed PT Services, Inc. a wholly-owned subsidiary, to accumulate nonregulated activity. Parts A, B, and I include the consolidated activity of Pine Telephone System, Inc. and its wholly-owned subsidiary. All material intercompany transactions and balances have been eliminated in the consolidation.</p> <p>Specifically, Part A includes \$42,733 of net plant, \$9,361 of cash, and \$27,539 in current assets that net to Pine Telephone's investment in PT Services, Inc. Part B includes \$6,671 of depreciation expense, \$27,713 of income tax benefit, and \$59,820 of nonregulated loss from PT Services, Inc. Part I includes the associated changes in cash flows of both companies.</p> <p>Please direct questions to Bruce S. Goslovich at (208) 550 - 7943 or bruce@goslovichfc.com.</p>
