

DOCKET NO. UM 1726

**Cover Sheet for Submission of
2015 Annual ETC Certification Reports**

Name of Eligible Telecommunications Carrier: Beaver Creek Cooperative Telephone Company

Filing date: June 29, 2015

Is this: Original submission? X
 OR
 Revised submission? _____

Person to contact for questions:

Name: Aimee Dietrich

Phone number: 503-845-4439

E-mail address: adietrich@cbsoregon.com

Documents included in this filing (please check applicable items):

- _____ CAF/ICC Support (47 CFR § 54.304)
- X Rate Floor Data (47 CFR § 54.313(h))
- X Form 481 (High-cost per 47 CFR § 54.313, Low-income per 54.422)¹
- _____ Form 690 (Mobility Fund per 47 CFR § 54.1009)
- X Affidavit for High-Cost Support

Filing deadlines: The deadlines for filing items required by 47 CFR § 54 are the same as the deadlines for filing with the FCC. The notarized affidavit for high-cost support must be filed no later than the due date for the FCC Form 481. Based on current information, it appears that all items other than CAF/ICC support data are due by July 1, 2015. The CAF/ICC support data are due the same day as the ETC's interstate access tariff filing.

¹ Lifeline-only ETCs must provide all information specified in 47 CFR § 54.422(b) even if the ETC does not submit this information to the FCC.

Rate Floor Template

Certification of Officer as to the Accuracy of the Data Reported for the Rate Floor Data

I certify that I am an officer of the reporting carrier; my responsibilities include ensuring the accuracy of the actual rate floor data reported ; and, to the best of my knowledge, the information reported on this form is accurate.

Name of Reporting Carrier **Beaver Creek Cooperative Telephone Company**

Signature of authorized officer

Date **06/15/2015**

Printed name of authorized officer **Paul Hauer**

Title or position of authorized officer **President**

Telephone number of authorized officer: **(503) 632-6314 ext.**

Study Area Code of Reporting Carrier

532359

Filing Due Date for this form
(mm/dd/yyyy)

07/01/2015

I certify that our company receives or is projected to receive High Cost Loop Support or High Cost Model Support in 2015 and has no monthly residential rates (plus charges as defined) less than \$21.22.

Data Entry History

Instructions
Agent Certification
Data Certification (No Rates Less Than \$21.22)
Data Certification (With Rates Less Than \$21.22)
Print Submitted Data in PDF format
Print Submitted Data in Excel format

Data Collection Period: 201506

Name: Aimee S Dietrich [First Middle Last]
Phone: 503-645-4439 [999-999-9999]
Email: adietrich@bscregon.com

Enter all exchange/rate zone level rates and their corresponding lines below, where the sum of columns C-F is less than \$21.22. This data will be used to calculate the impact of the local rate floor on your company's High Cost Support. This system is closed for data collection for this period

Table with 7 columns: (A) Exchange Name/Zone Name, (B) Class Of Service, (C) Residential Local Service Charge, (D) State Subscriber Line Charge, (E) State Universal Service Fee, (F) Mandatory Extended Area Service Charge, (G) Rate Total Subject to Floor (Sum of C-F), (H) Residential Lines

[To enter additional rows of data, click on the + button.]

If the data form is left blank, select one of the boxes below:

- Check here if your company receives or is projected to receive High Cost Loop Support or High Cost Model Support in 2015, but has no monthly residential rates (plus charges listed above) less than \$21.22 (certification required)
Check here if your company is not projected to receive High Cost Loop Support or High Cost Model Support in 2015
Check here if you plan to submit local rate floor data directly to USAC

<110> Has your company received its ETC certification from the FCC? If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>
<111> year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to §54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

<113> Maps detailing progress towards meeting plan targets	Yes
<114> Report how much universal service (USF) support was received	Yes
<115> How much (USF) was used to improve service quality and how support was used to improve service quality	Yes
<116> How much (USF) was used to improve service coverage and how support was used to improve service coverage	Yes
<117> How much (USF) was used to improve service capacity and how support was used to improve service capacity	Yes
<118> Provide an explanation of network improvement targets not met in the prior calendar year.	Not Applicable

**Beaver Creek Cooperative Telephone Company
PROGRESS REPORT ON SERVICE QUALITY IMPROVEMENT PLAN**

OVERVIEW

This document is an integral part of Beaver Creek Cooperative Telephone Company's (Beaver Creek) 2015 Annual Report, as attached to the Form 481. It is in compliance with §54.313(a)(1) adopted in the Federal Communications Commission USF/ICC Transformation Order (11-161) and incorporates all further clarifications identified in subsequent Reconsideration Orders, as applicable, that were in effect at the time the Annual Report was due, by Rule, to the requisite regulatory authorities.

Beaver Creek advises the environment in which the company operates is dynamic. As a result, certain network targets identified in its initial Five Year Service Quality Improvement Plan filed in 2014 may be modified in response to regulatory decisions subsequently adopted, when their implication upon Beaver Creek's financial viability in providing the required services and service level quality became known.

Modifications to the original network/service quality improvement plan may also have occurred due to changes in technology-driven support by vendors, weather or other emergency related contingencies as well as restraints on readily available cash.

Targets not met or changed since the initial Five Year Plan filing are identified and an explanation provided for these changes.

UNIVERSAL SERVICE SUPPORT RECEIVED IN 2015

On June 24, 2015 the Universal Service Administrative Company website reported a total of \$346,194 in Universal Service Funding (USF) received by Beaver Creek (for calendar year 2015, January through April). This is the most current information available as of the preparation of this filing. The breakdown of the support funding for 2015 is as follows:

- o \$ (730) High Cost Loop
- o \$196,936 Interstate Common Line Support
- o \$149,988 Connect America Fund-Intercarrier Compensation Support

USF support funds are used to: 1) maintain, upgrade and improve Beaver Creek's network, and 2) to cover its operating expenses and debt commitments as necessary to permit Beaver Creek to offer a high level of service for both voice and broadband throughout its regulated ILEC service area. Per 47 C.F.R. §54.314, federal USF support, "will only be used for the provision, maintenance, and upgrading of facilities and services for which the support is intended." If investments or expenses are for service areas larger than the supported service areas, then allocations of the expenditures are required.

USF support will continue to be included in Beaver Creek's current revenue accounts and forward-looking projections. Revenues, in the aggregate, are used for both capital expenditures as well as operating expenses and fixed costs incurred to obtain capital from lenders when appropriate. Beaver Creek does not segregate USF for the purposes of capital and operating expenditures; USF is expended in the same proportion as other revenue sources.

The proportionate share of USF expenditures for year-to-date 2015 is estimated as \$14,066 (4%) for capital projects and \$332,128 (96%) for operating expenses.

In the accompanying 2015 project detail, expenditures for network improvements may include service quality, coverage and capacity as an integrated improvement project and are not mutually exclusive from one another. In terms of cost, projects involving multiple qualifiers are so noted as well as any project involving a single qualifier.

PROGRESS REPORT

Beaver Creek provides the following updates on 2015 capital expenditures as of May 31, 2015:

Monthly New Installs/Plant Additions/Maintenance

Monthly work order activity in the Beaver Creek ILEC service area includes minor construction, replacement work of main line facilities, service drop installations and installation of miscellaneous electronic equipment. Approximately one-third of the budgeted amount for 2015 has been spent. These capital expenditures improve both voice and broadband service offerings.

DLC/DSLAM Battery Replacements

Six digital loop carrier (DLC) sites require battery replacements. These are noted on the map. Replacement of the existing battery strings improves service quality for both voice and broadband. Approximately one-third of the budgeted amount for 2015 has been spent.

Broadband Upgrades & Additions

Broadband upgrade work in the Beaver Creek ILEC service area includes replacement of ADSL service cards due to failure and/or age as well as the addition of gigabit Ethernet uplink hardware to assist with facility traffic loads. This will improve service quality and increase capacity for future broadband demands. Approximately one-half of the budgeted amount for 2015 has been spent.

Norry Court (Norry) DLC/DSLAM

The Norry Court project will replace an existing DLC/DSLAM system adjacent to an existing fiber backbone route on Beavercreek Road. The new system will improve service quality for both voice and broadband customers as well as increasing the available broadband speeds from 1.5 Mbps downstream/1 Mbps upstream to 15 Mbps

Beaver Creek Cooperative Telephone Company

SAC 532359

Progress Report on Service Quality Improvement Plan

Page 2 of 3

downstream/1 Mbps (or greater) upstream. Work on this project started after the May 31, 2015 date used for the 2015 progress report.

Eldorado Road Fiber Addition (Phase 1 of 3)

There is no available funding for this project in 2015. Reconsideration of the project will occur in future years as funding allows.

Network Monitoring/Remote Telemetry Unit

This 2015 project was completed in February 2015; it provides alarm event logging, reporting and alerting functionality, improving service quality for customers by enhancing network functionality for fast, accurate reporting of alarm situations.

Upgrade Existing Corporate Phone System

This project is nearing completion as of the date of the 2015 progress report; the new phone system provide a better customer experience and enhance the corporate image of Beaver Creek in its daily business operations. Because Beaver Creek offers both regulated and non-regulated services to its customers, only 75% of the expenditure is allocated to regulated operations.

Henrici Road Storm Drainage Project

This is a joint project with Clackamas County; the County has a federally funded project to improve storm drainage on Henrici Road. Beaver Creek has approximately 1,300 feet of facilities to be relocated. The project includes the relocation of some non-regulated facilities; the majority of the relocation is regulated ILEC facilities. The relocation work will be done in concert with the County's contractor to minimize cost.

Service Quality Standards - Voice

Beaver Creek Cooperative Telephone Company complies with the service standards set forth by the State of Oregon in the Oregon Administrative Rules 860-034-0390, Retail Telecommunication Service Standards for Small Telecommunications Utilities.

Service Quality Standards - Broadband

Beaver Creek Cooperative Telephone Company follows the service standards noted in the NECA Tariff #5 and is committed to providing the highest quality service to its broadband customers.

Consumer Protection Rules Compliance – Voice and Broadband

Beaver Creek Cooperative Telephone Company complies with the requirements of 47 CFR Part 64 Subpart U, Customer Proprietary Network Information, and the Federal Trade Commission Red Flags Rules to detect the warning signs — or "red flags" — of identity theft in their day-to-day operations. A manual for each of these programs is in place and employee training is conducted annually. New hires are instructed on these programs as required by their job functions.

Study Area Code: 532359

Study Area Name: Beaver Creek Cooperative Telephone Company

Program Year: 2016

Functionality in Emergency Situations

Beaver Creek Cooperative Telephone Company provides the following information to support its abilities to remain functional in an emergency situation:

Back-up Power

Switches – stand alone and/or host

Central Office: 400KW diesel generator with 400 gallon belly tank. Run time is approximately 72 hours. Battery plant capacity is 1200-Ah at eight hours. Present load on battery plant is 340-Ah.

Subscriber Carrier (DLC, DSLAM)

Beaver Creek Cooperative Telephone Company has the following site/node locations: Windy City, Clarkes, Timber Grove, Highland, Leisure Woods, Hogback, Fallsviw, Steiner, Beaver creek, Eldorado, Carus, Leland, Hoffman, Henrici, and Fairway. Site equipment is commercially fed, with eight hours of backup battery capacity that can be supplemented with portable generators at each site as needed.

Network Interface Device (NID)

Customers with metallic (copper) connections are provisioned with NIDs powered from the central office.

Customers with non-metallic (fiber optic) connections are provisioned with NIDs that are battery-powered in case of emergency. Battery backup is supplied at each location with eight hours of reserve under no use and approximately six hours of constant use.

Study Area Code: 532359

Study Area Name: Beaver Creek Cooperative Telephone Company

Program Year: 2016

Functionality in Emergency Situations (continued)

Ability to reroute traffic around damaged facilities

Beaver Creek Cooperative Telephone Company (BCT) has redundant facilities between its exchanges and/or its connecting company. Redundancy is in the form of a SONET fiber ring between BCT, CenturyLink, Inc. and Reliance Connects. CenturyLink, Inc. provides interconnection to the Public Switched Telephone Network.

Capability to manage traffic spikes resulting from emergency situations

Beaver Creek Cooperative Telephone Company's current configuration of DLCs with a 4:1 customer to GR-303 trunk ratio, coupled with customers directly fed from the central office main distribution frame puts BCT at an estimated 3:1 customer to switch interface ratio.

Trunk capacity for EAS and toll services are estimated to be between 16 to 24 customers to one trunk. Approximately 584 calls could be transported simultaneously.

Beaver Creek Cooperative Telephone Company takes no responsibility for the capabilities of interconnected networks to manage traffic spikes resulting from emergency situations and will continue its best efforts for its own networks during such events.

Terms and Conditions for Lifeline Customers

Lifeline subscribers receive the same residential service as a regular subscriber but at a reduced monthly recurring rate. Thus, Lifeline subscribers have an unlimited number of local calling minutes. Lifeline subscribers, similar to every Beaver Creek Cooperative Telephone Company subscriber, are free to choose their own toll usage plans by selecting an interexchange carrier that serves Beaver Creek Cooperative Telephone Company.

Local Service

LOCAL ACCESS LINE RATES - Cont'd

Local service is provided through facilities owned and maintained according to the standards of the Company. The territory is referred to as an exchange. Trunks and one-party service are provided.

BCT provides local service in three exchanges, Beavercreek, Oregon City and Redland.

BCT's application of rates is by exchange as determined by the geographical boundary established by the Oregon Public Utility Commission. The Beavercreek Exchange is the assigned serving area for Beaver Creek Cooperative Telephone Company (OPUC UA-51, Order 85-1167). BCT is also authorized to offer local access for the Oregon City Exchange (OPUC Ref: CP277, Order 99-763) and the Redland Exchange (OPUC Ref. CP1242, CP 131, CP 277, Order 06-155). See Exchange maps in section 6.

The application of business or residence rates is determined by the actual or obvious use made of the service by the customer. Where only one primary station is provided at a location which is both business and residence, the business rate will apply.

Local Service rates provide the means for the Company to recover the cost associated with central office switching not assigned to toll and Extended Area Service (EAS). The accounting for the separation of cost is determined by the Federal Communications Commission.

Customer premises equipment (CPE) is excluded. A customer premise inside wire is excluded.

Local Service

OREGON TELEPHONE ASSISTANCE PROGRAM (LIFELINE OR and OTAP)

Lifeline provides for a discount against the recurring monthly rate for the provision of local residential service for certain low-income customers. Lifeline, and OTAP are joint State and Federal Programs pursuant to 47 C.F.R. Subpart E. 54. In order to be eligible for Lifeline/OTAP subscribers must meet the requirements for the Oregon Telephone Assistance Program as defined in OAR 860-033-0030.

Lifeline subscribers may subscribe to toll-blocking at no extra charge. Toll blocking is described as "Toll Restriction". Lifeline subscribers who subscribe to toll blocking will not be required to pay service deposits in order to initiate service.

Lifeline/OTAP subscribers will not be disconnected for non-payment of toll charges, regardless of whether toll blocking is activated on their service. Non-Payment of toll charges will result in restriction of toll services. Payment of past due toll charges will be required to reconnect toll services. Partial payments received from Lifeline/OTAP subscribers will be first applied to local service and then to toll charges.

The following services are included in Lifeline:

- Voice grade access to the Public Switched Network
- Access to emergency services
- Access to interexchange services, unless toll blocking is in effect
- Toll Blocking

The discount will begin on the approval date after the Oregon Public Utility Commission notifies BCT that the customer is eligible for Lifeline/OTAP. The discount will be prorated from the effective date of the customer's application. The discount is applicable only to one access line at a residential customer's principal residence.

RE: WC Docket No. 14-58, 2015 Annual Report, Form 481 for High-Cost Recipient
§54.313(f)(1) "Milestone Certification"
Attachment for Line 3010

Dear Ms. Dortch:

In compliance with the filing requirements associated with, and attached to Form 481, Beaver Creek Cooperative Telephone Company SAC 532359 wishes to advise the Commission it provides broadband service to its customers, and:

- Has taken reasonable steps to provide, upon reasonable request, broadband service at actual speeds of 4 Mbps downstream/1 Mbps upstream;
- Provides latency suitable for real-time applications including VoIP and usage capacity which is reasonably comparable to those in urban areas, and;
- Reasonable requests for broadband service are met within a reasonable timeframe.

Please contact me with any questions by either telephone or e-mail:

Telephone: 503-632-6314

Anchor Institutions Within Beaver Creek Cooperative Telephone Company's Territory

Access to broadband services was available prior to 2014 to all known anchor institutions within the Beaver Creek Cooperative Telephone Company serving area. Any requests for broadband services and speeds were fulfilled in 2014. Beaver Creek Cooperative Telephone Company continues to monitor customer demand and technological innovations, planning to size its network in anticipation of requests and demand for higher broadband speeds.
