INDEPENDENT AUDITOR'S REPORT

Board of Directors
North State Telephone Company and Subsidiaries
Mt. Vernon, Oregon

We have audited the accompanying consolidated financial statements of North State Telephone Company (an Oregon corporation) and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2016 and 2015, and the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement for the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

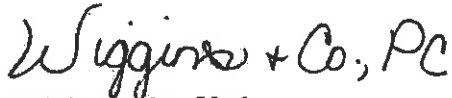

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of North State Telephone Corporation and Subsidiaries at December 31, 2016 and 2015, and the results of their operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

GAO Reporting

In accordance with *Government Auditing Standards*, we have also issued a report dated March 15, 2017, on our consideration of North State Telephone Corporation and Subsidiaries' internal control over financial reporting, and our tests of their compliance with certain provisions of laws, regulations, contracts and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audits.

NORTH STATE TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

North State Telephone Company (the Company) is an Oregon corporation providing telecommunications services within and around the city of Dufur, Oregon. The Company also provides cable television services to a similar area due to a merger with North State Cablevision, Inc. on December 31, 2013. In 2010, the company acquired 100% of the stock of Skyline Telecom, Inc. and includes the information of Skyline Telecom, Inc., in the consolidated financial statements. In 2014, the company acquired 100% of the stock of Home Telephone Company and Pine Telephone System, Inc. and includes their financial information in the consolidated financial statements.

During 2002, the Company issued stock to new stockholders and reacquired the stock of the former majority shareholder. The Company purchased 43 shares of stock at the fair value determined prior to the date of purchase. The amount is recorded at cost in the current financial statements. During 2003, 95.29% of the outstanding shares were acquired by Oregon Telephone Corporation resulting in the company becoming a consolidated subsidiary of Oregon Telephone Corporation.

Regulation

The Company's telecommunication services are subject to limited regulation by the Public Utility Commission of Oregon (PUC), and the accounting records are maintained in accordance with the Uniform System of Accounts, as prescribed by the Federal Communications Commission. Regulatory actions currently pending as well as future regulations, may impact the Company.

Consolidation

The consolidated financial statements include the accounts of North State Telephone Company and its subsidiaries, Skyline Telecom, Inc., Home Telephone Company and Pine Telephone System, Inc. All intercompany transactions have been eliminated in the consolidation.

Estimates

The Company uses estimates and assumptions in preparing consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Accordingly actual results could differ from those estimates.

NORTH STATE TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Comprehensive Income

The Company follows *FASB Accounting Standards Codification Sections for Reporting Comprehensive Income*. The purpose of reporting comprehensive income is to report all changes in equity of an enterprise that result from recognized transactions and other economic events of the period other than transactions with owners in their capacity as owners. The consolidated financial statements include a statement of comprehensive income for 2016 and 2015.

Cash and Cash Equivalents

The Company maintains its cash and cash equivalents in accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk. Cash and cash equivalents are defined as all short term cash with a maturity of three months or less. Cash equivalents are recorded at cost, which approximates fair value. Restricted cash includes funds obtained from Rural Utilities Services (RUS) for construction purposes.

Materials and Supplies

Materials and supplies are stated at the lower of average cost and net realizable value.

Other Investments

Other investments are in common stock of non-controlled entities with ownership percentages of less than twenty percent. These investments are recorded at cost.

Property, Plant, and Equipment

Property, plant, and equipment in service and under construction are stated at cost, including overhead. Maintenance and repairs are charged to operations when incurred. Renewals and betterments are capitalized. Depreciation is calculated on a straight-line basis over the estimated life of the classes of buildings and equipment in accordance with rates approved by the PUC. Depreciation rates range from 3.1% to 14.3%. Costs of plant retired are eliminated from utility plant accounts and such costs plus removal expenses, less salvage, are charged to accumulated depreciation.

Allowance for Funds Used During Construction (AFUDC)

The Company is required to calculate an amount to be capitalized to Plant for funds used during construction as defined by FCC Part 32 accounting policies. The calculation involves capitalizing funds at an average rate based on the Company's borrowing rate. No AFUDC was recorded in 2016 or 2015.

NORTH STATE TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Network Access Revenues

Network access revenues related to interlata and intralata toll service is received under a system of access charges. Access charges represent a methodology by which local telephone companies, including the Company, charge the long distance carriers for access and interconnection to local facilities. The Company follows an access tariff filed with the PUC for these charges.

When network access revenues have been received pursuant to the settlement and access agreements above, they are divided into traffic sensitive, nontraffic sensitive, and billing and collecting portions. The revenues are then either placed into a common pooling arrangement with other exchange carriers for redistribution or kept by the Company. The redistributions are made according to formulas established by the governing boards of the pools and are generally based upon expenses incurred and investment maintained. The Company participates in pooling arrangements with the National Exchange Carrier Association (NECA-65% of revenue in 2016 and 68% in 2015) and the Oregon Exchange Carrier Association (OECA).

Settlement, access, and pool distribution revenues are recorded when the amounts become determinable. Related expenses are recorded when incurred. Subsequent true-ups and retroactive adjustments, which are generally allowed for a period of 24 months after the close of the related calendar years (NECA only), are recorded in the year in which such adjustments become determinable, based upon studies by an outside consultant.

Allowance for Doubtful Accounts

An allowance for doubtful accounts is maintained. Amounts are estimated based on historical analysis of write offs and collections as a percentage of sales and accounts receivable balances.

Financial Instruments

The Company follows *FASB Accounting Standards Codification Sections on Disclosures about Fair Value of Financial Instruments*. The Statement extends fair value disclosure practices by requiring all entities to disclose the fair value of financial instruments, both assets and liabilities, recognized and not recognized in the balance sheets, for which it is practicable to estimate fair value. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than a forced or liquidation sale. The fair value of the Company's financial instruments approximates carrying value. Interest is charged on loans and notes receivable and recognized when earned. Fair values were estimated based on quoted market prices and on current rates offered to the Company for debt with similar terms and maturities.

 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Credit Risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of debt agreements. Concentrations of credit risk with respect to trade receivables are limited due to the Company's large number of customers. No collateral is required by the Company to support financial instruments subject to credit risk.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to expenses and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts (usually after 90 days) are written off through a charge to the valuation allowance and reductions of the accounts receivable accounts. Late fees are charged on accounts that are thirty days past due.

Reclassification of Prior Year Amounts

Certain amounts as previously reported in 2015 have been reclassified to conform to the 2016 financial statement presentation.

The terms of the long-term debt agreements require maintenance of defined amounts of stockholders' equity and working capital after payment of dividends. The RUS loan documents require that the Company meet a TIER ratio of 1 and a debt service coverage ratio of 1.25 (on a non-consolidated basis). The Company met the tier ratio requirements for 2016 and 2015, but did not meet the debt service coverage ratio for 2015. Pine Telephone Systems, Inc. rescinded all of their outstanding loan commitments during 2016.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT
AUDITING STANDARDS*

The Board of Directors
North State Telephone Company and Subsidiaries
Mt. Vernon, Oregon

We have audited the consolidated financial statements of North State Telephone Company and Subsidiaries as of and for the years ended December 31, 2016 and 2015, and have issued our report thereon dated March 15, 2017. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audits, we considered North State Telephone Company and Subsidiaries' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of North State Telephone Company and Subsidiaries' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of North State Telephone Company and Subsidiaries' internal control over financial reporting.

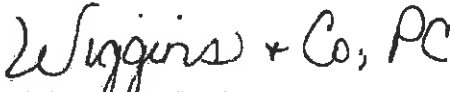

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North State Telephone Company and Subsidiaries' consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contract agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Directors, and the Rural Utilities Service and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH ASPECTS OF
CONTRACTUAL AGREEMENTS AND REGULATORY REQUIREMENTS FOR
TELEPHONE BORROWERS

Board of Directors
North State Telephone Company and Subsidiaries
Mt. Vernon, Oregon

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of North State Telephone Company and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2016 and 2015, and the related consolidated statements of revenue, comprehensive income, stockholders' equity and changes in cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated March 15, 2017. In accordance with *Government Auditing Standards*, we have also issued our report dated March 15, 2017, on our consideration of North State Telephone Company and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. No reports other than the reports referred to above related to our audit have been furnished to management.

In connection with our audit, nothing came to our attention that caused us to believe that North State Telephone Company and Subsidiaries failed to comply with the terms, covenants, provisions, or conditions of their loan, grant, and security instruments as set forth in 7 CFR Part 1773, *Policy on Audits of Rural Utilities Service Borrowers*, §1773.33 and clarified in the RUS policy memorandum dated February 7, 2014, insofar as they relate to accounting matters as enumerated below. However, our audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding North State Telephone Company and Subsidiaries' noncompliance with the above-referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they relate to accounting matters. In connection with our audit, we noted no matters regarding North State Telephone Company and Subsidiaries' accounting and records to indicate that North State Telephone Company and Subsidiaries did not:

Maintain adequate and effective accounting procedures;

Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;

Reconcile continuing property records to the controlling general ledger plant accounts;

Clear construction accounts and accrue depreciation on completed construction;

Record and properly price the retirement of plant;

Seek approval of the sale, lease or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap;

Maintain adequate control over materials and supplies;

Prepare accurate and timely Financial and Operating Reports;

Obtain written RUS approval to enter into any contract for the management, operation, or maintenance of the borrower's system if the contract covers all or substantially all of the telephone system;

Disclose material related party transactions in the financial statements, in accordance with requirements of related parties in generally accepted accounting principles;

Record depreciation in accordance with RUS requirements (See RUS Bulletin 183-1, Depreciation Rates and Procedures) and

Comply with the requirements for the detailed schedule of investments.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The detailed schedule of investments in affiliated companies required by 7 CFR 1733.33(i), and attached to this letter, is presented for purposes of additional analysis and is not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in our audit of the basic consolidated financial statements, and in our opinion, is fairly stated, in all material respects, in relation to the basic consolidated financial statements taken as a whole.

See Schedule of Investments in Affiliated Companies.

The debt provisions require the Company to maintain certain ratio levels. The Company met the tier ratio requirements for 2016 and 2015 but did not meet the debt service coverage ratio for 2015.

This report is intended solely for the information and use of the board of directors, management, and the RUS and supplemental lenders and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
