Re: UM 1823 - *Columbia Basin Electric Cooperative, Inc. vs. Umatilla Electric Cooperative*

UEC Status report

Dear ALJ Rowe:

Pursuant to your ruling on July 3, 2017, which approved the joint motion to establish a new procedural schedule, the parties were directed to provide a status report to inform the Commission: (1) whether settlement was reached by July 31, 2017, and (2) whether there are any lingering discovery disputes. UEC has not reached a settlement of the issues and is not aware of any lingering discovery disputes. Under the terms of your order (and the agreement of the parties), the stay was lifted today and the schedule contained in your order will govern the remainder of this proceeding. Please let us know if you have any questions.

Very truly yours,

Chad M. Stokes
