**RE: UM 1020 – PGE’s Request for an Extension of Contracts for Retail Marketing Services for Residential and Small Commercial Voluntary Renewable Energy Program and Acquisition of Renewable Energy Certificates to Offset Participant Usage**

Portland General Electric Company (PGE) submits this request to extend its contracts for retail Renewable Energy Certificate supply and Marketing and Outreach services for the Residential and Small Commercial Voluntary Renewable Energy Program by 12 months. The current contracts go through December 31, 2024; therefore, PGE requests an extension through December 31, 2025.

PGE proposes to extend the existing contracts to allow for time to make changes to the programs and their associated tariffs to adjust them to accommodate for the Renewable Portfolio Standard. Allowing PGE sufficient time to adjust the programs prior to issuing an RFP will allow for the opportunity for a more robust bidder pool and add necessary negotiation time as the programmatic changes will be established well before the RFP.

PGE respectfully requests that this matter be included on the agenda for the November 16<sup>th</sup> public meeting.
